

ABSTRACT

Music is a harmonious combination of notes, vocals, and instruments to express anything emotional, according to the Lexicographer. The art of music is an art that can express the soul which is packaged in the form of sound that has rhythm, music can reconcile the heart, and is therapy. Indonesia has a variety of music, even many musical groups from Indonesia that have reached the international stage. One of the cities that has quite a lot of musical development is the city of Bandung. Bandung produces many groups or soloists in the field of very high-quality music. However, there are still many music events that are not supported by a proper place to accommodate music activities and activities more efficiently.

In the city of Bandung, facilities or proper music performance buildings are still counted as fingers. Several places in the city of Bandung which are often used as places for music events to be held still do not meet the standards of music performance buildings. The need for space that does not meet the standards will greatly affect the performance which causes the performance of the musicians or the group itself to be not optimal and also has an impact on the audience who cannot enjoy it. Of the several problems found in the Interior Design of the Modern Music Activity Center in Bandung, it is one of the best things to do as a reference for the feasibility of the Music Activity Center, especially in the city of Bandung.

This music performance building is expected to function as a forum for community or musicians who are more efficient and can be used optimally, as a means of entertainment and as a place to socialize that can provide more interesting experiences, such as sharing ideas, knowledge, culture as well as experiences from the world of music. . The interior design of the Modern Music Activity Center in Bandung City uses the concept of Harmony of Expression, to create a space atmosphere that prioritizes functions and needs tailored to its users to create comfortable activities for users of the Modern Music Activity Center in Bandung City.
