

ACKNOWLEDGEMENT

First, I would like to said thank you to Allah for the blessing for the writer so that I'm able to finish this final project with the title of "Pemodelan Antarmuka Situs Web untuk Mempertingkatkan Sociability Anak-Anak Autism Spectrum Disorder (ASD) dengan Implementasi User Centered Design".

I also would like to thank you to my family and my friend that keeping me motivated to do my final project with their support and love.

Furthermore, I would like to say huge thank you to my supervisor Mr. Danang Junaedi and Mr Monterico Adrian as my supervisor for their contribution and guiding me to carry out this final project.

Lastly, I would like to say thank you to my friend Rifaldi, I Nengah Dharma and others that giving me the motivation and support. I'm hoping that with this final project it can help others.
