

LIST OF TABLES

Table 1. The results of the Indonesian criminal information need survey	22
Table 2. The sample of dataset from detiknews.com.....	28
Table 3. The sample of pre-processing results for crime type classification	28
Table 4. The data frequency based on crime category.....	29
Table 5. The results of crime type classification of Indonesian crime news.....	29
Table 6. The sample of Spacy annotation format dataset for named-entity recognition (NER) process	31
Table 7. The NER Dataset Frequency	31
Table 8. The sample of NER prediction results using trained model	32
Table 9. The results of pre-labeling Crime Scene (SC) and Not Crime Scene (NCS) of sentence dataset	34
Table 10. The Crime Scene Classification Dataset Frequency	34
Table 11. The sample of Crime Scene (SC) and Not Crime Scene (NCS) classification results of sentence dataset	35
Table 12. The sample of crime location and date extraction results	36
Table 13. The NER performance result	40
Table 14. The performance results of crime scene sentence classification.....	40
Table 15. The performance results of crime location and date extraction	41
Table 16. The comparison results of crime location and date extraction between previous research's system and proposed system in this research.....	41
Table 17. The sample of prediction errors of NER results	42
Table 18. The sample of prediction errors of crime scene sentence classification results	43
Table 19. The NER performance result	44
Table 20. The performance results of crime location and date extraction	45
Table 21. The comparison results of crime location and date extraction between previous research's system and proposed system in this research	45
