According to the Big Indonesian Dictionary (KBBI) Research is a systematic, critical, and scientific investigation (research) of a problem to increase knowledge, obtain new facts, or perform better interpretations. So the understanding of the Rasulullah's History Research Center Building is an association building that leads to a research activity to help Muslims and students of UIN Sunan Gunung Djati Bandung to imitate and study the history of the Prophet Muhammad.

The contribution of the State Islamic University of Sunan Gunung Djati, Bandung in building the historical research center of the Prophet Muhammad was to be the first in the PTKIN environment (State Islamic Religious College) which aims as a place to study student scholarship in the field of faculties within the State Islamic University of Sunan Gunung Djati Bandung, in addition to being a place to study student scholarship, the Prophet's History Research Center Building is the locomotive of the Indonesian people to explore and imitate the Prophet and Islamic civilization which has been centered in the Arabian Peninsula.

Keywords : *The Prophet's History Research Center Building, Research Center, Sunan Gunung Djati State Islamic University Bandung*
