

PREFACE

The author expresses deep gratitude to Allah SWT, who has bestowed His grace and guidance so that the author can complete this Final Project with the title of **"Analysis of Wireless and Cable Network Quality-Of-Service Performannce at Telkom University Landmark Tower Using Network Development Life Cycle (NDLC) method"**. This Final Project was made to fulfill the graduation requirements for the Bachelor of Information Systems study program at the School of System and Industrial Engineering, Telkom University. In preparing this final project, the author received input in the form of guidance and suggestions, and support from various parties. Therefore, the author would like to express his deepest gratitude to:

1. Mr. Rd. Rohmat Saedudin, S.T., M.T., Ph.D. as the first advisor of this Final Project, who is always available to motivate, assist and guide in the preparation of this Final Project.
2. Mr. Umar Yunan Kurnia Septo Hedyanto, S.T., M.T. as the second advisor of this Final Project, who is always ready to provide knowledge, advice, and guidance in preparing this Final Project.
3. The Telkom University's Pusat Teknologi dan Informasi, who has helped by willing to provide information and data needed by the author in preparing the Final Project.

In preparing for this final project, the author realizes that many shortcomings still need to be improved. This is due to the limited knowledge and insight that the author has. Therefore, the author apologizes for any shortcomings in this final project. The author expects suggestions and constructive criticism. Finally, the author hopes this Final Project can be helpful and fulfill the graduation requirements.
