

FOREWORD

Assalammualaikum Wr. Wb

All praise and gratitude for the grace and grace of Allah, who has allowed the author to be able to complete the Final Project entitled "IoT Based Battery Management System For Drone Battery Swapping Station." Completion of this Final Project is a requirement for obtaining a Bachelor of Engineering degree in the Electrical Engineering Study program at Telkom University.

The author would like to thank all those who have provided support, guidance, and advice in preparing this final project. The writer realizes that the preparation for this final project is still far from perfect. Therefore, the author apologizes for any shortcomings in the preparation of this final project.

The author hopes this final project can be helpful and add insight to readers and writers. With all respect and humility, the author welcomes input in the form of constructive criticism and suggestions to be better in the future.

Wassalamualaikum Wr. Wb
