

WORDS OF THANKS

By expressing gratitude to Allah S.W.T for His mercy and grace, the writer was able to complete the Final Project with the title "IoT Based Battery Management System For Drone Battery Swapping Station." During the completion of this final project, the author received a lot of support, motivation, advice, entertainment, and prayers for its completion. Therefore, full of respect and pride, the author expresses his gratitude to:

1. Ayah Ekoy and Umi Nana as the author's parents, along with their extended family, who always provides support in the form of costs, motivation, affection, and prayers to the author so that the author can complete the lecture period well.
2. Mr. Muhammad Zakiyullah Romdlony, S.T., M.T., Ph.D., as supervisor one who has taken the time to provide input, shared knowledge, and solutions for the completion of this final project..
3. Mr. Amin, M.T., as supervisor one who has taken the time to provide input, shared knowledge, and solutions for the completion of this final project.
4. Friends of writers Brianisa and Averina who always help and remind the writer to keep working on the Final Project.
5. Thank you to all my friends who are always there when it's hard or happy. His presence is very helpful for the author in completing the Final Project.
