

LIST OF FIGURE

Figure 2. 1 Solution Concept Design	5
figure 2. 2 Quadcopter.....	8
figure 2. 3 Quadcopter movement base on motors	9
figure 2. 4 Sharp IR GP2Y0A02YK0F	10
figure 2. 5 Block diagram Sharp IR sensor	11
figure 2. 6 Sharp GP2Y0A21YK graph of distance to voltage comparison	12
figure 2. 7 Arduino Uno Board pin out.....	13
Figure 2. 8 Fuzzy Logic example.....	14
Figure 3. 1 Block Diagram.....	15
Figure 3. 2 Quadcopter Design	16
Figure 3. 3 Schematic.....	17
Figure 3. 4 Arduino pin out.....	18
Figure 3. 5 Sharp IR pin out.....	19
Figure 3. 6 JST pin out.....	20
Figure 3. 7 APM 2.8.....	21
Figure 3. 8 Flowchart System	22
Figure 3. 9 Fuzzy model for collision avoidance system.....	23
Figure 3. 10 membership function front sensor	24
Figure 3. 11 membership function back sensor	25
Figure 3. 12 membership function left sensor.....	26
Figure 3. 13 membership function right sensor	26
Figure 3. 14 membership function forward.....	28
Figure 3. 15 membership function backward.....	29
Figure 3. 16 membership function move left.....	29
Figure 3. 17 membership function move right.....	30
Figure 4. 1 Drone move forward.....	36
Figure 4. 2 Drone move backward.....	36
Figure 4. 3 Drone move left	37
Figure 4. 4 Drone move right.....	37
Figure 4. 5 Arduino serial monitor Front sensor dekat	38
Figure 4. 6 Pitch Channel cepat	38

Figure 4. 7 Drone move backward.....	39
Figure 4. 8 Arduino serial monitor Front sensor lumayan.....	39
Figure 4. 9 Pitch channel sedang.....	40
Figure 4. 10 Drone move backward.....	40
Figure 4. 11 Arduino serial monitor Front sensor jauh.....	41
Figure 4. 12 Pitch channel jauh.....	41
Figure 4. 13 Drone move backward.....	42
Figure 4. 14 Arduino serial monitor Right Sensor dekat.....	42
Figure 4. 15 Roll Channel cepat.....	43
Figure 4. 16 Drone move left.....	43
Figure 4. 17 Arduino serial monitor Right Sensor lumayan.....	44
Figure 4. 18 Roll channel sedang.....	44
Figure 4. 19 Drone move to left.....	45
Figure 4. 20 Arduino serial monitor Right sensor jauh.....	45
Figure 4. 21 Roll Channel lambat.....	46
Figure 4. 22 Drone move to left.....	46
Figure 4. 23 Arduino serial monitor Left sensor dekat.....	47
Figure 4. 24 Roll Channel cepat.....	48
Figure 4. 25 Drone move to right.....	48
Figure 4. 26 Arduino serial monitor left sensor lumayan.....	48
Figure 4. 27 Roll Channel sedang.....	49
Figure 4. 28 Drone move to right.....	49
Figure 4. 29 Arduino serial monitor Left sensor jauh.....	50
Figure 4. 30 Roll Channel jauh.....	50
Figure 4. 31 Drone move to right.....	51
Figure 4. 32 Arduino serial monitor Back sensor dekat.....	51
Figure 4. 33 Pitch channel dekat.....	52
Figure 4. 34 Drone move forward.....	52
Figure 4. 35 Arduino serial monitor Back sensor lumayan.....	53
Figure 4. 36 Pitch Channel lumayan.....	53
Figure 4. 37 Drone move forward.....	54
Figure 4. 38 Arduino serial monitor Back sensor jauh.....	54

Figure 4. 39 Pitch Channel jauh.....	55
Figure 4. 40 Drone move forward.....	55
Figure 4. 41 Scenario Path Planning Test.....	56
Figure 4. 42 Graph Pitch and Roll Channel.....	57
Figure 4. 43 Drone move backward and left.....	58
Figure 4. 44 Graph Roll and Pitch channel.....	59
Figure 4. 45 Drone move backward and right.....	59
