|-------------------------------------------------|-------------|
| <b>ABSTRACT</b>                                 | <b>iv</b>   |
| <b>PREFACE</b>                                  | <b>v</b>    |
| <b>Contents</b>                                 | <b>vi</b>   |
| <b>List of Figures</b>                          | <b>viii</b> |
| <b>List of Tables</b>                           | <b>ix</b>   |
| <b>1 INTRODUCTION</b>                           | <b>1</b>    |
| 1.1 Background . . . . .                        | 1           |
| 1.2 Problem Formulation . . . . .               | 2           |
| 1.3 Objectives . . . . .                        | 3           |
| 1.4 Scope of Works . . . . .                    | 3           |
| 1.5 Research Method . . . . .                   | 4           |
| 1.6 Undergraduate Thesis Organisation . . . . . | 4           |
| <b>2 BASIC CONCEPT</b>                          | <b>6</b>    |
| 2.1 Semi-supervised learning . . . . .          | 6           |
| 2.2 Class-Imbalanced SSL . . . . .              | 7           |
| 2.3 Model Bias . . . . .                        | 8           |
| 2.4 Class-rebalancing self-training . . . . .   | 9           |
| 2.5 Generation in SSL . . . . .                 | 11          |
| 2.6 Precision and Recall . . . . .              | 12          |
| 2.7 Average Accuracy Recall per class . . . . . | 12          |
| <b>3 SYSTEM DESIGN</b>                          | <b>13</b>   |
| 3.1 Research Flow Chart . . . . .               | 13          |
| 3.2 Dataset . . . . .                           | 14          |
| 3.2.1 CIFAR dataset . . . . .                   | 14          |

|          |                                                                        |           |
|----------|------------------------------------------------------------------------|-----------|
| 3.2.2    | CIFAR Long-Tailed dataset . . . . .                                    | 15        |
| 3.3      | Class Rebalancing Self Training using google colab plat form . . . . . | 17        |
| 3.3.1    | install dependencies . . . . .                                         | 18        |
| 3.3.2    | Environment Settings . . . . .                                         | 19        |
| 3.3.3    | Running Experiment on Long-tailed CIFAR10 . . . . .                    | 19        |
| 3.4      | Wide Residual Network . . . . .                                        | 20        |
| 3.5      | Device specifications . . . . .                                        | 21        |
| <b>4</b> | <b>PERFORMANCE EVALUATION</b>                                          | <b>22</b> |
| 4.1      | Analysis of Dataset Changes at Every 5 Generations . . . . .           | 22        |
| 4.1.1    | 1st Generation . . . . .                                               | 22        |
| 4.1.2    | 2nd Generation . . . . .                                               | 23        |
| 4.1.3    | 5th Generation . . . . .                                               | 24        |
| 4.1.4    | 10th Generation . . . . .                                              | 25        |
| 4.1.5    | 15th and 16th Generation . . . . .                                     | 26        |
| 4.1.6    | 20th Generation . . . . .                                              | 28        |
| 4.1.7    | 25th Generation . . . . .                                              | 29        |
| 4.1.8    | 30th Generation . . . . .                                              | 30        |
| 4.2      | Precision . . . . .                                                    | 31        |
| 4.3      | Recall . . . . .                                                       | 33        |
| 4.4      | Average Accuracy recall per class . . . . .                            | 34        |
| <b>5</b> | <b>CONCLUSIONS</b>                                                     | <b>36</b> |
| 5.1      | Conclusion . . . . .                                                   | 36        |
| 5.2      | Suggestion . . . . .                                                   | 37        |
|          | <b>Bibliography</b>                                                    | <b>38</b> |
