

PREFACE

As a requirement for completing the level Education S1 Telecommunications Engineering at Telkom University, the writer's final project, "DESIGN AND IMPLEMENTATION OF AN MQTT-BASED INTERNET OF DRONE THINGS FOR SWARM DRONE," has the title "DESIGN AND IMPLEMENTATION OF AN MQTT-BASED INTERNET OF DRONE THINGS FOR SWARM DRONE." Praise and gratitude are offered

The author would like to express special thanks to the author's first supervisor, Dr. Nyoman Bogi Aditya Karna, S.T., MSEE, and the second supervisor of the authors, Arif Indra Irawan, S.T., M.T., for their guidance and support for the authors in completing this final project.

This final project has been prepared carefully, the author hopes that this final project can be useful for readers and writers in the future. The writer is very aware that this Final Project is still far from being perfect. There are still many shortcomings in the writing of this Final Project due to the limited knowledge and experience of the author, therefore all criticism and suggestions are highly expected for the perfection of this Final Project, even though in this world it is said that nothing is perfect.
