LIST OF TABLES

Table 2. 1 LoRaWAN Gateway Spesification [12] 7
Table 2. 2 Characteristic Traffic of Smart Meter 8
Table 2. 3 Regulation and Description of LPWAN in Indonesia 11
Table 2. 4 Signal Level of RSSI [22] 14
Table 2. 5 Value of SNR 15
Table 2. 6 Prediction of Smart Water Metering Market in Banyumas Regency using Bass Diffusion Model 25
Figure 3. 1 Research Framework 18
Figure 3. 2 Monthly Checking Manually 19
Figure 3. 3 Smart Water Meter Architecture 19
Figure 3. 4 Banyumas Regency's Map 20
Figure 3. 5 Network Planning Procedure 26
Figure 3. 6 Cost Design 27
Figure 3. 7 Smart Water Metering flowIQ® 2100 [28] 28
Figure 3. 8 WirnetTM iStation Gateway 29
Figure 3. 9 Smart Water Meter LoRa Digital for Antares Services 30
Table 4. 1 Bit Rate Based on Spreading Factor [35] 33
Table 4. 2 Preamble Duration based on Spreading Factor 34
Table 4. 3 Payload Symbol, Payload Duration and Packet Duration based on Spreading Factor 34
Table 4. 4 LoRaWAN Capacity Planning Calculation 35
Table 4. 5 LoRaWAN Packet Demand Calculation 35
Table 4. 6 LoRaWAN Gateway Requirement Calculation Result 36
Table 4. 7 LoRaWAN Link Budget Parameters [36] [37] 36
Table 4. 8 Sensitivity Calculation Result 37
Table 4. 9 EIRP Calculation 38
Table 4. 10 MAPL Calculation Result 38
Table 4. 11 Cell Radius 39
Table 4. 12 result of cell area calculation 39
Table 4. 13 Numbers of Gateway 40
Table 4. 14 Simulation results for Banyumas Regency 46

Table 4. 15 Parameter assumptions for economic calculation 47
Table 4. 16 Investment Smart Metering Cost..... 48
Table 4. 17 Total CAPEX per-Year for Smart Water Metering..... 48
Table 4. 18 Cost of Power Usage 49
Table 4. 19 Smart Water Metering Annual Cost..... 49
Table 4. 20 Total OPEX per-Year for Smart Water Metering 49
Table 4. 21 Device Tariff for Smart Water Metering..... 51
Table 4. 22 Revenue per-Year of Smart Water Meter Rent..... 51
Table 4. 23 Value ARPU of LoRaWAN Planning..... 51
Table 4. 24 ARPU Per-year..... 52
Table 4. 25 Total Revenue for all Scenario in 1 Year..... 52
Table 4. 26 CAPEX of Antares 53
Table 4. 27 Total CAPEX per-Year for Smart Water Metering using Antares Service..... 54
Table 4. 28 OPEX of Antares Service Cost 54
Table 4. 29 Total OPEX per-Year for Smart Water Metering using Antares Service..... 54
Table 4. 30 Transaction Device Revenue..... 55
Table 4. 31 Assumption of Feasibility Analysis 56
Table 4. 32 Total Annual Cost and Revenue of LoRa Network Planning 57
Table 4. 33 Total Annual Cost and Revenue of Antares Services 57
Table 4. 34 Net Cash Flow from the remaining investment of Smart Water Meter LoRaWAN Planning..... 59
Table 4. 35 Net Cash Flow from the remaining investment of Smart Water Meter with Antares Service 60
Table 4. 36 Feasibility Indicator based on Economic Analysis 61
Table 4. 37 Business Feasibility Analysis Result of Gateway Service for Smart Water Metering in Banyumas Regency 62
Table 4. 38 Recommendation of Key Decisions and Criteria..... 62
Table 4. 39 Existing Regulation for IoT vs Proposed Regulation..... 64
