ACKNOWLEDGEMENTS

This thesis is compiled with the effort, help and support from students and lecturer.

I want to express my deepest gratitude and appreciation to :

1. The writer is overwhelmingly indebted to Dr. Ir. Heroe Wijanto, MT as first supervisor for his meticulous guidance and support to the writer in accomplishing this thesis.

2. The writer is remarkably appreciative and grateful to Dr. Nachwan Mufti Adriansyah, ST, MT as second supervisor for his guidance and assistance in completing this thesis.

3. The writer also acknowledge with a profound discernment of respect and appreciation towards the writer's wife, parents and family member, who have always supported the witer morally.

4. The writer appreciate the support given by Putri Rahmawati and Ni Putu Dhea. Without their help, the writer would not complete the calculation and simulation fot this thesis.

5. The writer appreciate the support given by Sugeng Miftahudin and Indra Nurparatama as my classmate that always give encouragement and input to writer while completing this thesis.

Anyone missing in this short acknowledgement does not symbolize a shortage appreciation.

The author hopes that the goodness of all parties can be rewarded by God Almighty. With this closing sentence, the author thanks and hopefully useful.
