

## ACKNOWLEDGE

This is the time for the author to express his or her genuine gratitude to all those who have helped with this undergraduate thesis by providing support and assistance. These expression of gratitude are sent to the following:

1. Allah SWT for His kindness, mercy, and guidance to make the author's completion of this undergraduate thesis much easier.
2. The most important people for my life, Ayah, Mama, Icha, and Adlin. Thank you for the endless support and love.
3. Dr. Nyoman Bogi Aditya Karna, S.T., MSEE., as my first supervisor and Mr. Arif Indra Irawan, S.T., M.T., as my second supervisor who consistently take the time to mentor, support, advise, and inspire the author in finishing this undergraduate thesis.
4. Mr. Agus Dwi Prasetyo, S.T., M.T., as TT-43-INT Guardian Lecturer who always provide assistance and direction during my time in Telkom University.
5. All of the Telkom University lecturers who have helped me learn throughout the years.
6. Afdelia Novianti and Daffa Auriely Athaya who always give the author the warmest advice, motivation, and support during this educational process.
7. Riza, Miko, and Adhan who have been supportive housemate during author's time in Telkom University.
8. Ratna, Gangan, Alvaro, Dhio, Ikhsan, Fika, and all of author friends for all the support and help.
9. Physics Laboratory Colleagues who have been a part of the author in finishing the education.
10. Kak Disya and Bang Ivan who always provide answers and help any time the author needs.
11. TT-43-INT classmates who have been supportive friends for these years.
12. All parties who have helped the author that can't be mentioned.
