ABSTRACT

The web-based application for finding tutors in the Brebes area is an application to hone childeren's brains, usually parants only know their child is studying at school. Private tutoring itslef is learning outside school hours or outside teaching and learning hours. The purpose of this application is that each student with a unique personality can be handled in different ways. For that, a tutor must be good at positioning himself when dealing with his students. This private tutoring is a solution for a chill who cannot master certain subjets. That way, it is hoped that these application will all be easier and easier for the child to digest too.
