

## **ABSTRACT**

In the world of education, the curriculum plays a crucial role. Without the right curriculum, learners will not achieve the intended learning outcomes. At Telkom University Bandung, an Outcome Based Education (OBE) curriculum is implemented to enhance the quality of the education system, emphasizing innovation, interactivity, and effectiveness in the learning process. In this regard, the OBE Application System can assist the academic community in the lecture learning process at Telkom University by identifying and determining student learning achievements.
