

PREFACE

I express my heartfelt gratitude to Allah S.W.T for guiding me to this momentous stage of completing my bachelor's degree. This final project is a mandatory milestone at Telkom University, and I owe its success to those who stood by me throughout this journey.

- First and foremost, I extend my sincere thanks to my 1st advisor, Ari Yanuar Ridwan, ST., M.T., whose unwavering support began from the inception of my TA proposal. His invaluable assistance has been pivotal in shaping this work.
- I am equally indebted to my 2nd advisor, Nia Novitasari, S.T., M.T., for providing comprehensive guidance and enabling me to complete this project successfully.
- My heartfelt appreciation also goes to several academic teachers, notably Ms. Dida, Mr. Deni, Ms. Ayudita Oktafiani, and Mr. Nashir, without whom I could not have reached this phase of my academic journey.
- I am deeply grateful to my supportive family, whose encouragement and belief in my abilities have been a constant source of strength.
- Lastly, I express my thanks to all my peers from TI-43-INT for their camaraderie and encouragement.

I acknowledge that this final project may not be flawless, but I hope it can offer positive insights to its readers and contributors. Constructive feedback and suggestions are warmly welcomed for future improvements.
