

ABSTRACT

Sumedang Regency Government Center Office functions as a place of work for the Regent and Regional Secretariat of Sumedang Regency. The workspace of the Assistant for Government and People's Welfare will be redesigned in the interior of the division's workspace. The focus on helping to improve or raise the locality of Sumedang has a goal as a tool to increase pride as a citizen of Sumedang Regency and the welfare of the Sumedang people. The research methods used by the author are object determination, literature study, observation, documentation, interviews and data analysis. The purpose of designing office interiors that meet user needs is also to introduce Sumedang locality symbolically in the processing of interior elements so that a space can display its identity and also become a medium to strengthen the image of each section in the Government and People's Welfare Division. The concept of office interior design as a symbol of light for the people of Sumedang when providing services by presenting a sense of tranquility that supports a comfortable, safe, peaceful, and free atmosphere in employees in order to encourage employee work activities to achieve the character of Good Governance.

Keywords: *office, Sumedang, symbolic.*
