

## **PREFACE**

In the name of Allah SWT, the beneficent and merciful. All praise is merely to The Mightiest Allah SWT, the lord of the worlds, for the gracious mercy and tremendous blessing that enable me to achieve the last journey of my undergraduate study program in Industrial Engineering Study Program, Faculty of Industrial Engineering, Telkom University.

While accomplishing Final Project, the writers want to give biggest thanks to:

1. Author parents who always give moral support and prayers during this this Final Project and during my education.
2. Author Final Project Supervisor, Mrs. Dr. Dida Diah Damayanti, S.T., M.Eng.Sc., and Mr. Dr. Nopendri, S.Si., M.Si. for her guidance during the work of this final project.
3. As well as the author friends who cannot be mentioned one by one who have provided support and a place for discussion from the beginning to the completion of this final project.
4. For all the entities in CV Una Surya Putra Mandiri as a case study in this final project who has been willing to provide data sources ranging from interviews, observations, and documents for the final project.

The author also thanks to all parties who indirectly contributed to the completion of this Final Project. The author is very aware of the shortcomings of this Final Project. Therefore, constructive criticism and suggestions from the readers are highly expected. Finally, the author hopes this research can be useful for those who read and need, especially for readers in general.
