

## ***ABSTRACT***

*This final project is an illustrated book entitled "heaven". In this work, we want to discuss various emotional forms, impacts, and various forms of bullying behavior and ways to deal with bullying behavior in adolescents, the feelings of victims of bullying. Bullying is an aggressive action that is carried out repeatedly by one individual or group which is carried out against a weaker party. There is a crisis in public awareness of a case of bullying that is rife among teenagers in the digital era which can cause various adverse effects. on mental health, and social health in every victim. socially, Bullying is a trigger for mental health in adolescent children with various kinds of problems related to poor mental health adjustments and violent behavior (Kusuma, 2016). (Annual Review of Law and Social Sciences, 2012). The research method used in conducting this research is to use a qualitative method of collecting data from literature studies, interviews, questionnaires, and analysis, to obtain data and information related to bullying cases.*
