

AUTHOR'S FOREWORD

Assalamualaikum Warahmatullahi Wabarakatuh

The writer expresses gratitude for the presence of Allah SWT, who has bestowed abundant grace, blessings, and guidance, enabling the completion of the final assignment titled "**Design and Realization of Microstrip Circular Patch Antenna Using Textile Material with 2.4 GHz Frequency for Telemedicine**". This assignment serves as a requirement for the fulfillment of the undergraduate program (S1) in the Department of Telecommunications Engineering.

The author acknowledges the presence of some limitations and challenges encountered throughout the development and production of this Final Project book. The author anticipates receiving constructive comments and recommendations. The author wishes to extend their sincere appreciation to the several individuals and organizations who have provided support, assistance, and guidance during the process of completing this ultimate publication. Ultimately, the author expresses remorse for the errors committed.

Wassalamu'alaikum Warahmatulahi wabarakatuh.
