

ACKNOWLEDGE

On this occasion, the author would like to sincerely thank all those who have helped in the completion of this thesis book “**Reduction Method of Vegetation Effects on Estimation Soil Water Content Using FMCW Radar**”.

1. All praise to Allah SWT that has given all His favor and guidance for the author to complete this thesis book.
2. The author's parents and family who always provide encouragement, motivation, and endless prayers.
3. I am extremely grateful to my supervisors, Prof. Dr. Aloysius Adya Pramudita, S.T, M.T., and Dr.-Ing. Fiky Y. Suratman, S.T., M.T. for their invaluable advice, continuous support, and patience during my study. Their immense knowledge and plentiful experience have encouraged me in all the time of my academic research and daily life.
4. I would like to express my profound gratitude to the Gambung PPTK Team for their invaluable assistance in facilitating the data collection necessary for my thesis. Your support has been truly indispensable.
5. I wish to extend my sincere appreciation to Azizka Ayu Dhiyani, S.T., M.T., for her attentive ear to my concerns throughout the progress of this thesis. Her assistance and motivation played a pivotal role in my successful completion of this final project.
6. I would like to extend my profound appreciation to Lukman Hakim for his invaluable assistance in the design and implementation of the program within my thesis. Without his expertise and support, the seamless progression of my thesis would not have been possible.
7. I would like to express my deep gratitude to Wahyu Primadia for his invaluable assistance in the development of this thesis. His unwavering support, participation in various RC IoT activities, attentive listening, and motivational encouragement have been instrumental throughout this journey.

8. I extend my heartfelt thanks to Aldi Rivaldi for his substantial assistance in my thesis work, diligent documentation of each activity, and continuous motivation that greatly contributed to the successful completion of this thesis.
9. I wish to express my sincere gratitude to Suisbiyanto Prasetya for his invaluable support in assisting me with my thesis, providing essential hardware tools, and aiding in the collection of necessary data. His contributions were pivotal to the successful completion of this work.
10. I would like to convey my heartfelt gratitude to the esteemed members of the RC IoT Telkom University. Your collective contributions, patience in listening to my concerns, and unwavering motivation were integral to the successful completion of this thesis.
11. I extend my sincere thanks to my seniors, Queen Hesti Ramadhany, S.T., M.T., and Tyas Oksi Praktika, S.T., M.T., for their invaluable guidance and assistance throughout the process of completing this thesis.
12. I would like to express my gratitude to all the staff members of the Electrical Engineering Master's program, specifically Mrs. Giashinta Larasati and Mr. Ruddle Cahyadi, for their assistance with administrative matters during my time at the university. Your support was greatly appreciated.
13. I would like to extend my heartfelt thanks to all my dearest friends who have consistently lent an attentive ear to my narratives, offered motivation, and provided solutions throughout our journey together. Your unwavering support and presence have been invaluable to me.
14. I wish to express my sincere appreciation to Sulthon M Fauzi Aulia, S.T., M.T., for his motivating presence throughout the process of completing this thesis. I am grateful for his attentive listening and valuable solutions that have significantly contributed to my success.
15. I would like to express my heartfelt gratitude to all those individuals whose names I may not have mentioned individually. Your collective support and assistance have been instrumental in helping me complete my master's degree thesis. Thank you for your invaluable contributions.

In writing this thesis book, the author realizes many shortcomings due to the limitations of the author's knowledge. The Author is open to all criticism and suggestions from all parties to improve this thesis book. Last, the author would like to apologize for any errors in the thesis book. Hopefully, this thesis book can be useful for the author and reader.
