Cirebon Regency Regional Library is one of the public facilities provided by the government to Cirebon residents, especially Cirebon Regency residents as a means of education and entertainment. The Regional Library of Cirebon Regency is a district/city level library located on Jl. Sunan Drajat No.9, Sumber, Cirebon Regency . The strategic location of the library in the Cirebon Regency government office area which can become a public facility that can become an education center in Cirebon Regency. But in fact, the Regional Library of Cirebon Regency still does not meet the needs of its users regarding changes in the digital era, inadequate facilities and limited space. To answer this, it is necessary to create a new interior design for the Cirebon Regency Regional Library, with the aim of creating a library that is able to adapt as needed with the Smart Library approach so that the Cirebon Regency Regional Library can motivate interest in visiting and make the atmosphere of the library room comfortable, not boring and flexible. The methodology in designing the interior of the Cirebon District Library through data collection, observation, interviews, literature studies, programming, themes and concepts as well as the final result is in the form of design.

Keywords: *Library, Public Library, Smart Library*
