

ACKNOWLEDGMENTS

This thesis is presented to meet one of the requirements to obtain a Master's Degree in Electro-Telecommunication in the school of Electrical Engineering, Telkom University, Bandung, Indonesia. I would like to express my sincere gratitude to everyone who has helped me in this thesis as follows:

1. Both parents, Parents in law, and my wife were always enthusiastic and supportive both morally and financially during their masters in telecommunications at Telkom University.
2. Dr.Ir. Heroe Wijanto, M.T., as thesis Supervisor, who has provided guidance and advice during the preparation, research, and writing of this thesis.
3. Dr. Antonius Darma Setiawan as thesis Co-Supervisor, who has provided guidance and advice during the preparation, research, and writing of this thesis.
4. All Lecture and Telkom Engineering School staff at Telkom University have transferred much knowledge and help to me during study at the Telkom University.
5. Students Fellow of Electro-Telecommunication Engineering Graduate Program in the School of Electrical Engineering, Telkom University, has always given the spirit to complete this thesis.

Finally, may ALLAH SWT receive all their support, effort, and kindnesses. Amin Yaa Rabbal 'Alamiin.
