DEDICATION

This thesis has been completed with the invaluable support of my family, to whom I am deeply grateful. I sincerely thank everyone who has helped, guided, and supported me throughout this work.

I dedicate this thesis to my beloved parents and Widya, Adit, and Adel, the loves of my life. I hope this research will contribute to the field of computer science.

ACKNOWLEDGMENTS

Alhamdulillahirabbil 'alamin, all praise and gratitude be to Allah SWT, who has bestowed His mercy and guidance, enabling the author to complete this thesis in time. I have received invaluable guidance, encouragement, and assistance from various parties while researching and writing this thesis. Therefore, on this occasion, I wish to express my gratitude and the highest appreciation to:

1. My family and parents, who have always provided prayers, moral, and material support. They have been my primary motivators in pursuing higher education and have been instrumental in helping me complete this thesis.

2. Mr. Dr. Bayu Erfianto, S.Si., M.Sc., my first supervisor, for the time and dedication he has devoted to guiding me throughout the completion of this thesis.

3. Mrs. Dr. Setyorini, S.T., M.T., the Head of the Master of Informatics at Telkom University and also my second supervisor, for her attention and the facilities provided that have greatly aided my research.

4. The lecturers of the Master of Informatics program who have imparted invaluable knowledge and insights.

5. All my peers in the S2 Informatics 2022 cohort, who have journeyed with me from the start to the end of our lectures.

6. My colleagues at Telkom DSO-MSE, for giving me the opportunity to work while pursuing my master's degree, and for their continuous encouragement and assistance with my work.
