

## DAFTAR ISI

|                                       |     |
|---------------------------------------|-----|
| LEMBAR PENGESAHAN .....               | ii  |
| LEMBAR PERNYATAAN ORISINALITAS .....  | iii |
| ABSTRAK .....                         | iv  |
| <i>ABSTRACT</i> .....                 | v   |
| KATA PENGANTAR .....                  | vi  |
| UCAPAN TERIMA KASIH.....              | vii |
| DAFTAR ISI.....                       | ix  |
| DAFTAR GAMBAR .....                   | xii |
| DAFTAR TABEL.....                     | xiv |
| BAB 1 PENDAHULUAN .....               | 1   |
| 1.1 Latar Belakang .....              | 1   |
| 1.2 Rumusan Masalah.....              | 2   |
| 1.3 Batasan Masalah .....             | 3   |
| 1.4 Tujuan Penelitian .....           | 3   |
| 1.5 Metode Penelitian .....           | 3   |
| 1.6 Jadwal Penelitian .....           | 4   |
| BAB 2 KAJIAN PUSTAKA.....             | 6   |
| 2.1 Kajian Penelitian Terkait .....   | 6   |
| 2.2 Teori Dasar.....                  | 7   |
| 2.2.1 Pink Eye .....                  | 7   |
| 2.2.2 <i>Cataract</i> .....           | 8   |
| 2.3 Image Processing .....            | 9   |
| 2.4 Machine Learning .....            | 9   |
| 2.5 Artificial Neural Network.....    | 9   |
| 2.6 Deep Learning.....                | 9   |
| 2.7 Convolutional Neural Network..... | 10  |
| 2.7.1 Convolution Layer .....         | 10  |
| 2.7.2 Padding.....                    | 11  |
| 2.7.3 Stride .....                    | 12  |
| 2.7.4 Pooling Layer.....              | 12  |

|                                  |  |    |
|----------------------------------|--|----|
| 2.7.5                            | Activation.....                                  | 13 |
| 2.7.6                            | Fully – Connected Layer.....                     | 14 |
| 2.8                              | VGG16.....                                       | 15 |
| 2.9                              | <i>Data Augmentation</i> .....                   | 15 |
| 2.10                             | Transfer Learning.....                           | 16 |
| 2.11                             | Dropout .....                                    | 16 |
| 2.12                             | Tensorflow .....                                 | 17 |
| 2.13                             | Confusion Matrix .....                           | 18 |
| 2.13.1                           | Parameter Evaluasi <i>Confusion Matrix</i> ..... | 18 |
| BAB 3 METODOLOGI PENELITIAN..... |  | 21 |
| 3.1                              | Flowchart Penelitian .....                       | 21 |
| 3.2                              | Alat dan bahan .....                             | 22 |
| 3.3                              | Metode Implementasi.....                         | 24 |
| 3.4                              | Persiapan Data .....                             | 25 |
| 3.4.1                            | Pengumpulan Dataset.....                         | 25 |
| 3.4.2                            | Preprocessing data.....                          | 25 |
| 3.5                              | Modeling.....                                    | 26 |
| 3.5.1                            | Perancangan Model.....                           | 27 |
| 3.5.2                            | Konfigurasi <i>Training</i> .....                | 32 |
| 3.5.3                            | Evaluasi Performa Model.....                     | 34 |
| BAB 4 HASIL DAN PEMBAHASAN.....  |  | 35 |
| 4.1                              | <i>Data Collection</i> .....                     | 35 |
| 4.2                              | <i>Preproccesing Data</i> .....                  | 35 |
| 4.2.1                            | Data Cleaning.....                               | 35 |
| 4.2.2                            | Data Augmentasi.....                             | 36 |
| 4.2.3                            | Data Splitting .....                             | 38 |
| 4.2.4                            | Resize Image .....                               | 38 |
| 4.3                              | Pencarian Model Terbaik.....                     | 39 |
| 4.3.1                            | CNN .....  | 39 |

|                                 |   |    |
|---------------------------------|---|----|
| 4.3.2                           | CNN + DO .....                                      | 41 |
| 4.3.3                           | VGG16.....  | 42 |
| 4.3.4                           | VGG16 + DO .....                                    | 43 |
| 4.3.5                           | VGG16 + TF .....                                    | 45 |
| 4.3.6                           | VGG16 + TF + DO .....                               | 46 |
| 4.3.7                           | Kesimpulan dari model terbaik .....                 | 47 |
| 4.4                             | Hasil Confusion Matrix.....                         | 48 |
| 4.4.1                           | CNN .....   | 48 |
| 4.4.2                           | CNN + DO .....                                      | 50 |
| 4.4.3                           | VGG16.....  | 52 |
| 4.4.4                           | VGG16 + DO .....                                    | 54 |
| 4.4.5                           | VGG + TF .....                                      | 56 |
| 4.4.6                           | VGG + TF + DO .....                                 | 59 |
| 4.4.7                           | Rangkuman Singkat hasil Dari Confusion matrix ..... | 61 |
| 4.5                             | Pengujian Model dengan Kelas Baru.....              | 61 |
| 4.5.1                           | Proses Training.....                                | 62 |
| 4.5.2                           | Hasil Confusion Matrix.....                         | 63 |
| BAB 5 KESIMPULAN DAN SARAN..... |   | 66 |
| 5.1                             | Kesimpulan .....                                    | 66 |
| 5.2                             | Saran .....   | 67 |
| DAFTAR PUSTAKA .....            |   | 68 |
| LAMPIRAN.....                   |   | 71 |
