
LIST OF TABLES

3.1	Source of The Required Variable	20
3.2	INACBGs Code related to Breast Cancer Treatment	23
3.3	The example of merge breast cancer treatment	25
3.4	The breast cancer treatments after merging similar treatment	26
3.5	The example of merge breast cancer treatment	27
3.6	A Part of Event Log	28
4.1	The ten most frequent treatments of breast cancer treatment	37
4.2	The Five Most Frequent Trace Variants of Breast Cancer Treatment	38
4.3	The three shortest and longest average time intervals	38
4.4	Performance between Process Mining Algorithm	42
4.5	The Three Most Frequent Trace Variants in R Group	44
4.6	The Three Most Frequent Trace Variants in R Group	45
4.7	The Three Most Frequent Trace Variants in R Group	46
4.8	Performance Analysis of Treatment Groups	47
4.9	Petri Net Analysis of Treatment Groups	47
4.10	Comparison of average elapsed time, average remaining time, and average sojourn time (in days)	53
4.11	Waiting Time of General Treatment	55
4.12	Waiting Time of R Group	55
4.13	Waiting Time of Ch Group	56
4.14	Waiting Time of R-Ch Group	57
