**ABSTRACT**

The Bandung City Education Office is prepared with reference to the vision and mission of the Bandung City Government, so that in its implementation there is mutual strengthening and synergy for the realization of quality, equitable, and environmentally sound education services. In connection with the vision and mission of the Bandung City Government, the Bandung City Education Office establishes a vision and mission that is considered relevant to the vision and mission of the Bandung City Government and strategic to the current conditions of education in Bandung City. The vision of the Education Office that has been determined is as follows: “The realization of quality, equitable and environmentally sound education services”. The purpose of redesigning the Bandung City Disdik office is to make the Bandung City Disdik office more organized in its interior and not look monotonous. The methodology applied in this redesign is through field observations, and literature studies. With this redesign, it is hoped that the problems that exist in this office, both social problems and interior problems, can be resolved so that they can meet the needs of the community as a whole.
