

ABSTRACT

Hotel Kartika One is a three-star accommodation located in South Jakarta classified into the type of business hotel because guests who stay at business hotels are dominated by the type of entrepreneurial business people. As the center of government and the center of economic activity, Jakarta is experiencing very rapid development, for example in business activities in Jakarta cannot be separated from trade areas and shopping centers such as in the Lenteng Agung area. Lenteng Agung area, has a lot of potential as a backup location for business travelers because it is close to the business trade center. The hotel design aims to optimize the function of space and create a unique and attractive atmosphere, while meeting the needs of the activities of business people and tourists, thus leaving a deep impression of the hotel.
