PT. Perkebunan Nusantara IV has an employee competency training center, namely the N4CE Training Center located in Pabatu, Tebing Tinggi District, Serdang Bedagai Regency, North Sumatra Province. However, N4CE Training Center still has many aspects that are not in accordance with the standards. Among them when viewed in terms of spatial proximity, spatial facilities, material implementation and also spatial aesthetics that have not yet described the elements of the existing locality. With the majority of the company's business area in the province of North Sumatra and some of the considerations above, North Sumatra locality-based design is an approach that can be sustainable design in various conditions and various times. In designing the N4CE Training Center in Pabatu, it goes through several stages including interviews, observations, comparative studies, literature studies, documentation, programming, and determining the design concept to be applied. Where the final result achieved is the N4CE design Training Center that is in accordance with standards and can describe the locality of North Sumatra.
