

AUTHOR'S FOREWORD

Assalamualaikum Warahmatullahi Wabarakatuh.

Alhamdulillah rabbi 'alamin, praise and gratitude the author prays to the presence of Allah SWT for His mercy and grace, so that the author can complete this undergraduate thesis with the title **DEVELOPMENT OF SMART PARKING SYSTEM WITH WEATHER MONITORING AND PAYMENT SYSTEM USING QRIS BASED ON INTERNET OF THING (IOT)**.

The author has written the undergraduate thesis well as a requirement in completing undergraduate education at the Bachelor of Telecommunication Engineering study program, School of Electrical Engineering, Telkom University.

The author recognizes that there are many flaws in the creation of this undergraduate thesis, and it is far from ideal. This reflects the author's limitations. As a result, the author expects constructive feedback and suggestions to help enhance this final project.

Finally, the author expects that this undergraduate thesis will be beneficial to the surrounding community and can be implemented by the community, particularly the academic community at Telkom University.
