

ACKNOWLEDGE

On this occasion, the author would like to sincerely thank all those who have helped in the completion of this thesis book “**Beamforming Using Substrate Integrated Waveguide (SIW) Technique On 24 GHz FMCW Radar For Breath Detection**”.

1. All praise to Allah SWT that has given all His favor and guidance for the author to complete this thesis book.
2. The author's parents and family who always provide encouragement, motivation, and endless prayers.
3. I am extremely grateful to my supervisors, Prof. Dr. Aloysius Adya Pramudita, S.T, M.T., and Dr. Ir. Yuyu Wahyu., M.T. for their invaluable advice, continuous support, and patience during my study. Their immense knowledge and plentiful experience have encouraged me in all the time of my academic research.
4. I would like to express my profound gratitude to the team of the antenna laboratory of the Telecommunication Research Center, BRIN for their invaluable assistance in facilitating the test and measurement collection necessary for my thesis. Your support has been truly indispensable.
5. My deepest gratitude to the entire family of PUIPT IS-IoT, Telkom University; Mr. Erfansyah Ali, Aldi Rivaldi, Lukman Hakim, Wahyu Primadia, Bella Khairunnisa, Nurul Febri, Virginia Iskandar, Viren Mappadang, M. Chaerullah, and Surya, for all the help, encouragement, and efforts that were voluntarily given to the author during the study period.
6. All staff at S2, Mrs. Giashinta Larasati and Mr. Insan Nur M who have answered all questions related to confusion during S2 studies.
7. As well as all parties who have not been mentioned, thank you very much for your support, prayers, and encouragement to the author.

In writing this thesis book, the author realizes many shortcomings due to the limitations of the author's knowledge. The Author is open to all criticism and suggestions from all parties to improve this thesis book. Last, the author would like to

apologize for any errors in the thesis book. Hopefully, this thesis book can be useful for the author and reader.
