LIST OF TABLES

Table I. 1 Gambier Production based on Sub-District 2022 (PERDA, 2020) 7

Table II. 1 Industrial Policy Criteria (Adopted from : (UNIDO, 2018)) 31

Table II. 2 Pricing Policies Consideration Aspects 34

Table II. 3 Value Added Calculation Method 43

Table II. 4 Hayami Template (Hayami et al., 1987) 44

Table II. 5 Questions Benchmark for Developing ABM 52

Table II. 6 Advantages and Challenge ABM 55

Table II. 7 Simulation Software Comparison 56

Table II. 8 Simulation Method Comparison 57

Table II. 9 Previous Study 66

Table II. 10 Research Position 77

Table III. 1 Research Characteristics 84

Table III. 2 Research Operational Process 86

Table III. 3 Data Requirements 87

Table IV. 1 Chosen Actors for Agent-s Based Model 106

Table IV. 2 Value Added at Farmer Level 112

Table IV. 3 Value Added at Home Industry Level 114

Table IV. 4 Value Added at Traders Level 116

Table IV. 5 Value Added at Exporter Level 118

Table IV. 6 Value Added Ratio for Each Actors based on Hayami Modification 121

Table IV. 7 Risk Identification 125

Table IV. 8 Actor and Purpose Weighting 137

Table IV. 9 Production Technology Advancement Strategy Analysis 149
Table IV. 10 Government Policies Strategy Analysis 150
Table IV. 11 Institutional and Partnership Strategy Analysis 151
Table IV. 12 Infrastructure Improvement Strategy Analysis 153
Table IV. 13 Strategy Fulfilment Analysis 154
Table IV. 14 Balancing Model Calculation Data 157
Table IV. 15 Agents and State Variables 164
Table IV. 16 Entities Scales 166
Table IV. 17 ABM Design Concept 176
Table IV. 18 ABM Details 178
Table IV. 19 NetLogo Validation Data 184
Table IV. 20 NetLogo Validation Result 185
Table IV. 21 Initial Simulation Result 188
Table IV. 22 Strategy Implication Scenario Data 192
Table IV. 23 Strategy Implication Simulation Result 193
Table IV. 24 Price Fluctuation Simulation Data 197
Table IV. 25 Price Stabilization Scenario Result 198
Table IV. 26 Scenario Selection 201
Table IV. 27 Agent Learning under Uncertain Behavior Data 203
Table IV. 28 Policies Design Baseline from Simulation 212
Table V. 1 Relationship of Hayami Mtehod and Simulation 222
Table V. 2 Novelty of this Research 233
