

## PREFACE

Alhamdulillah, with full of heart author delivers the highest gratitude to Allah SWT that give me courage every time he gets tired and gives me peace every time, he gets stressed. Thanks to Allah SWT with his grace make the author move to finish this research. Without him, we are all nothing. In this research titled “MODEL OF DESIGNING PRICING POLICIES FOR GAMBIER INDUSTRY BASED ON ADDED-VALUE AND RISK LEVELS OF SUPPLY CHAIN” the process author got many lessons to learn to keep himself always eager to learn and adapt. In every process, there are always some obstacles that exist. Fortunately, the author is not alone.

There are a lot of people who help and support him as technically and mentally to finish this research. Therefore, it is appropriate for the author to respectfully thank them and pray that Allah will give them the best reward, they are:

1. Mrs. Dr. Dida Diah Damayanti ST., M.Eng.Sc and Dr. Iphov Kumala Sriwana S.T., M.Si. as the advisors for this research.
2. Government of Lima Puluh Kota Regency for the permission and accompanied
3. All actors in the Gambier Industry
3. All lectures in the School of Industrial Engineering
4. Family and closest friend of the author
5. All cups of coffee that the author’s productivity along the work

Finally, the author realizes that nothing is perfect, and the writer still makes mistakes in preparing the research. Therefore, the author apologizes profusely for the mistakes made by the author.

The author hopes this research can be useful for readers and can be used as a reference for development in a better direction. Truth comes from God and error comes from the author. May Allah SWT always bestow his Grace and Ridho on all of us.

## LIST OF CONTENT

ABSTRACT	i
ORIGINALITY STATEMENT .....	ii
VALIDITY SHEET .....	iii
PREFACE .....	iv
LIST OF CONTENT .....	v
LIST OF TABLE .....	x
LIST OF FIGURE.....	xii
CHAPTER I INTRODUCTION.....	1
I.1 Research Object Overview.....	1
I.2 Research Background .....	1
I.3 Problem Formulation .....	16
I.4 Research Objectives .....	17
.....	18
I.5 Research Benefits.....	19
I.6 Problem Constraints .....	20
I.7 Writing Systematic.....	21
CHAPTER II LITERATURE REVIEW .....	24
II.1 Literature Review.....	24
II.1.1 Uncaria Gambier Roxb (Gambier).....	24
II.1.2 Gambier Growth and Market Structure.....	25
II.1.3 Public Policy .....	28
II.1.4 Model of Policy Formulation .....	29
II.1.5 Formulation of Industrial Policy .....	30
II.1.6 Pricing Policies in Agroindustry .....	31

II.1.7	Supply Chain Management .....	38
II.1.8	Value Added and Risks .....	40
	.....	47
II.1.9	Fairness Concept and Value-Added and Risk Level Balancing model in this Research .....	48
II.1.9	Agent-Based Model and Simulation .....	50
II.1.10	System Approach .....	63
III.1.11	Fuzzy Logic.....	63
	.....	65
II.2	Previous Studies .....	65
II.3	State of the Art .....	72
	.....	73
II.4	Thinking Framework.....	74
II.5	Research Position .....	76
II.6	Research Governance.....	82
II.6.1	Place and Time .....	82
II.6.2	Data Collecting Procedures.....	82
CHAPTER 3 RESEARCH METHODOLOGY .....		84
III.1	Research Characteristics .....	84
III.2	Sample and Population.....	85
III.3	Data Requirements .....	85
III.4	Data Processing Tools.....	87
III.4.1	Analytical Hierarchy Process (AHP) .....	87
III.4.2	Fuzzy Inference Program .....	88
III.4.3	Multi-Agent System Modelling (SMA).....	88
III.4.4	Unified Modelling Language (UML).....	88
III.4.5	Validation Method .....	89

III.5	General Research Process .....	90
III.5.1	Value-Added Calculation.....	93
III.5.2	Risk Identification and Risk Weighting.....	95
III.5.4	Agent-Based Model Simulation Balancing Model .....	96
III.5.5	Pricing Policies Formulation.....	99
CHAPTER IV RESULT AND DISCUSSION .....		101
IV.2	Gambier Supply Chain Identification .....	101
IV.2.1	Supply Chain Identification and Business Model.....	101
IV.2.2	Supply Chain Model .....	106
IV.3	Value-Added Calculation using Hayami Method .....	111
IV.3.2	Value Added Calculation for Farmer .....	111
IV.3.3	Value Added Calculation for Home Industry .....	113
IV.3.4	Value Added Calculation for Traders .....	115
IV.3.5	Value-Added Calculation for Exporters .....	117
IV.3.6	Modification Process and Calculation Result .....	119
IV.3.7	Model Verification and Validation .....	124
IV.4	Risk Identification and Weighting .....	124
IV.4.1	Risk Weighting .....	136
IV.4.1	Risk Identification at Farmer Level .....	138
IV.4.2	Risk Identification at Home Industry Level.....	139
IV.4.3	Risk Identification at Traders' Level .....	140
IV.4.4	Risk Identification at Exporter Level.....	140
IV.5	Identification and Evaluation of Value-Added Improvement Strategy	
	141	
IV.5.1	Value-Added Improvement Strategy Evaluation for Each Actor ....	144
IV.5.2	Value-Added Improvement Strategy Analysis .....	147
IV.5.3	Purpose Fulfilment Analysis.....	148
IV.6	Balancing Model of Value Added and Risk Distribution .....	156
IV.7	System Requirement Analysis .....	162

IV.6	Agent-Based Model Simulation using Net-Logo.....	164
IV.7	Pricing Policies Formulation.....	204
1.	Pricing Objectives .....	204
a.	Protect Farmer and Gain Bargaining Power in the market .....	204
b.	Free and Fair Market.....	204
c.	Protect and Develop Gambier Industry .....	205
d.	Conducive and Sustainable Business Environment .....	205
2.	Pricing Strategy and Policies Formulation.....	205
8.	Market Information Systems.....	211
CHAPTER V ANALYSIS.....		215
V.1	Result Analysis .....	215
V.1.1	Gambier Supply Chain Analysis.....	215
V.1.2	Value Added Analysis .....	217
V.1.3	Risk and Strategy Analysis .....	218
V.1.4	Balancing Model Analysis .....	220
V.1.5	Analysis Relationship of Hayami Method and Simulation.....	222
V.1.5	Analysis of Agent Behavior and Interaction .....	223
V.1.5	Agent-Based Model Analysis .....	225
V.1.6	Net Logo Simulation Scenario Analysis .....	228
V.1.7	Relationship between Cost, Risk, and Value in this Research.....	229
V.1.7	Relational Analysis of Pricing Policies.....	230
V.1.8	Reliability Analysis of Pricing Policies to Research Issues.....	231
V.1.9	Novelty of the Research .....	232
V.2	Managerial Implication .....	234
CHAPTER VI CONCLUSION .....		236

VI.1	Conclusion .....	236
VI.2	Suggestion .....	237
	REFERENCES.....	238
	ATTACHMENT .....	256
