LIST OF FIGURES

Figure 2. 1 Empoasca Attack
Figure 2. 2 (a) Empoasca infestation on the lower leaf surface (b) Empoasca
infestation on the upper leaf surface
Figure 2. 3 Multispectral Camera
Figure 2. 4 Multispectral camera capture (a) RGB Channel (b) Green Channel (c)
NIR Channel (d) RED Channel (e) REG Channel
Figure 2. 5 Color map spectral
Figure 2. 6 Multilayer Perceptron
Figure 2. 7 Architecture Convolutional Neural Network
Figure 2. 8 Confusion Matrix of Multiclass
Figure 3. 1 Block Diagram of Data Acquisition
Figure 3. 2 Block Diagram of Data Training Model
Figure 3. 3 Processing Spectral Image25
Figure 3. 4 Processing Thresholding
Figure 3. 5 Data Image Capture Experiment
Figure 3. 6 Dataset Collection Set Up
Figure 3. 7 Dataset Green (a) Healthy Leaves (b) Leaves Affected by Heavy
Empoasca Infestation (c) Leaves Affected by Light Empoasca Pest Infestation (d)
Leaves Affected by Other Pests
Figure 3. 8 Dataset NIR (a) Healthy Leaves (b) Leaves Affected by Heavy
Empoasca Infestation (c) Leaves Affected by Light Empoasca Pest Infestation (d)
Leaves Affected by Other Pests
Figure 3. 9 Dataset RED Healthy Leaves (b) Leaves Affected by Heavy Empoasca
Infestation (c) Leaves Affected by Light Empoasca Pest Infestation (d) Leaves
Affected by Other Pests
Figure 3. 10 Dataset REG (a) Healthy Leaves (b) Leaves Affected by Heavy
Empoasca Infestation (c) Leaves Affected by Light Empoasca Pest Infestation (d)
Leaves Affected by Other Pests
Figure 3. 11 Healthy Leaves Dataset (a) RGB Channel (b) Green Channel (c) NIR
Channel (d) RED Channel (e) REG Channel

Figure 3. 12 Leaves Affected by Heavy Empoasca Infestation (a) RGB Channel
(b) Green Channel (c) NIR Channel (d) RED Channel (e) REG Channel 31
Figure 3. 13 Leaves Affected by Light Empoasca Pest Infestation (a) RGB Channel
(b) Green Channel (c) NIR Channel (d) RED Channel (e) REG Channel 32
Figure 3. 14 Leaves Affected by Other Pests (a) RGB Channel (b) Green Channel
(c) NIR Channel (d) RED Channel (e) REG Channel
Figure 3. 15 Convolutional Neural Network Architecture
Figure 3. 16 ResNet-50 Architecture
Appendix A.1 Training and Validation Green Channel Using CNN (a) Training
and Validation Accuracy Green Channel (b) Training and Validation Loss Green
Channel71
Appendix A. 2 Confusion Matrix Green Channel Using CNN
Appendix A. 3 Training and Validation Green Channel Using ResNet-50 (a)
Training and Validation Accuracy Green channel (b) Training and Validation Loss
Green channel
Appendix A. 4 Confusion Matrix of Green Channel Testing Using ResNet-50 73
Appendix A. 5 Training and Validation Green Channel Using AlexNet (a) Training
and Validation Accuracy Green channel (b) Training and Validation Loss Green
channel74
Appendix A. 6 Confusion Matrix of Green Channel Testing Using AlexNet 75
Appendix A. 7 Training and Validation NIR Channel Using CNN (a)Training and
Validation Accuracy NIR Channel (b)Training and Validation Loss NIR Channel
Appendix A. 8 Confusion Matrix NIR Testing Using CNN
Appendix A. 9 Training and Validation NIR Channel Using ResNet-50 (a)
Training and Validation Accuracy NIR channel (b) Training and Validation Loss
NIR channel77
Appendix A. 10 Confusion Matrix of NIR Channel Testing Using ResNet-50 78
Appendix A. 11 Training and Validation NIR Channel Using AlexNet (a) Training
and Validation Accuracy NIR channel (b) Training and Validation Loss NIR
channel
Annendix A. 12 Confusion Matrix of NIR Channel Testing Using AlexNet 79

Appendix A. 13 Training and Validation RED channel Using CNN (a) Training
and Validation Accuracy RED channel (b) Training and Validation Loss RED
channel
Appendix A. 14 Confusion Matrix RED channel Testing Using CNN 81
Appendix A. 15 Training and Validation RED Channel Using ResNet-50 (a)
Training and Validation Accuracy RED Channel (b) Training and Validation Loss
RED Channel
Appendix A. 16 Confusion Matrix of RED Channel Testing Using ResNet-50.82
Appendix A. 17 Training and Validation RED Channel Using AlexNet (a) Training
and Validation Accuracy RED Channel (b) Training and Validation Loss RED
Channel
Appendix A. 18 Confusion Matrix of RED Channel Testing Using AlexNet 84
Appendix A. 19 Training and Validation REG Channel Using CNN (a) Training
and Validation Accuracy REG Channel (b) Training and Validation Loss REG
Channel85
Appendix A. 20 Confusion Matrix REG Channel Testing Using CNN
Appendix A. 21 Training and Validation Reg Channel Using ResNet-50 (a)
Training and Validation Accuracy REG Channel (b) Training and Validation Loss
REG Channel86
Appendix A. 22 Confusion Matrix of REG Testing Using ResNet-50 87
Appendix A. 23 Training and Validation Reg Channel Using AlexNet (a) Training
and Validation Accuracy REG Channel (b) Training and Validation Loss REG
Channel
Appendix A. 24 Confusion Matrix of REG Testing Using AlexNet 88
Appendix B. 1 Training and Validation Green and NIR Channel Using CNN (a)
Training and Validation Accuracy Green and NIR Channel (b) Training and
Validation Loss Green and NIR Channel
Appendix B. 2 Confusion Matrix Green and NIR Channel Using CNN
Appendix B. 3 Training and Validation Green and NIR Channel Using ResNet-50
(a) Training and Validation Accuracy Green and NIR Channel (b) Training and
Validation Loss Green and NIR Channel
Appendix B. 4 Confuison Metrix Green and NIR Channel Using ResNet-50 91

Appendix B. 5 Training and Validation Green and NIR Channel Using AlexNet
(a) Training and Validation Accuracy Green and NIR Channel (b) Training and
Validation Loss Green and NIR Channel
Appendix B. 6 Confuison Metrix Green and NIR Channel Using AlexNet 93
Appendix B. 7 Training and Validation Green and RED Channel Using CNN (a)
Training and Validation Accuracy Green and RED Channel (b) Training and
Validation Loss Green and RED Channel
Appendix B. 8 Confusion Matrix Green and RED Channel Using CNN 94
Appendix B. 9 Training and Validation Green and RED Channel Using ResNet-50
(a) Training and Validation Accuracy Green and RED Channel (b) Training and
Validation Loss Green and RED Channel95
Appendix B. 10 Confusion Matrix Green and RED Channel Using ResNet-50 96
Appendix B. 11 Training and Validation Green and RED Channel Using AlexNet
(a) Training and Validation Accuracy Green and RED Channel (b) Training and
Validation Loss Green and RED Channel
Appendix B. 12 Confusion Matrix Green and RED Channel Using AlexNet 97
Appendix B. 13 Training and Validation Green and REG Channel Using CNN (a)
Training and Validation Accuracy Green and REG Channel (b) Training and
Validation Loss Green and REG Channel
Appendix B. 14 Confusion Matrix Green and REG Channel Using CNN 99
Appendix B. 15 Training and Validation Green and REG Channel Using ResNet-
50 (a) Training and Validation Accuracy Green and REG Channel (b) Training and
Validation Loss Green and REG Channel
Appendix B. 16 Confusion Matrix Green and REG Channel Using ResNet-50
Appendix B. 17 Training and Validation Green and REG Channel Using AlexNet
(a) Training and Validation Accuracy Green and REG Channel (b) Training and
Validation Loss Green and REG Channel
Appendix B. 18 Confusion Matrix Green and REG Channel Using AlexNet. 102
Appendix B. 19 Training and Validation NIR and RED Channel Using CNN (a)
Training and Validation Accuracy Green and REG Channel (b) Training and
Validation Loss Green and REG Channel

Appendix B. 20 Confusion Matrix NIR and RED Channel Using CNN 103
Appendix B. 21 Training and Validation NIR and RED Channel Using ResNet-50
(a) Training and Validation Accuracy NIR and RED Channel (b) Training and
Validation Loss NIR and RED Channel
Appendix B. 22 Confusion Matrix NIR and RED Channel Using ResNet-50 105
Appendix B. 23 Training and Validation NIR and RED Channel Using AlexNet
(a) Training and Validation Accuracy NIR and RED Channel (b) Training and
Validation Loss NIR and RED Channel
Appendix B. 24 Confusion Matrix NIR and RED Channel Using AlexNet 106
Appendix B. 25 Training and Validation NIR and REG Channel Using CNN (a)
Training and Validation Accuracy NIR and REG Channel (b) Training and
Validation Loss NIR and REG Channel
Appendix B. 26 Confusion Matrix NIR and REG Channel Using CNN 108
Appendix B. 27 Training and Validation NIR and REG Channel Using ResNet-50
(a) Training and Validation Accuracy NIR and REG Channel (b) Training and
Validation Loss NIR and REG Channel
Appendix B. 28 Confusion Matrix NIR and REG Channel Using ResNet-50 109
Appendix B. 29 Training and Validation NIR and REG Channel Using AlexNet
Training and Validation Accuracy NIR and REG Channel (b) Training and
Validation Loss NIR and REG Channel
Appendix B. 30 Confusion Matrix NIR and REG Channel Using AlexNet 111
Appendix B. 31 Training and Validation REG and RED Channel Using CNN (a)
Training and Validation Accuracy REG and RED Channel (b) Training and
Validation Loss REG and RED Channel
Appendix B. 32 Confusion Matrix REG and RED Channel Using CNN 112
Appendix B. 33 Training and Validation REG and RED Channel Using ResNet-50
(a) Training and Validation Accuracy REG and RED Channel (b) Training and
Validation Loss REG and RED Channel
Appendix B. 34 Confusion Matrix REG and RED Channel Using ResNet-50. 114
Appendix B. 35 Training and Validation REG and RED Channel Using AlexNet
(a) Training and Validation Accuracy REG and RED Channel (b) Training and
Validation Loss REG and RED Channel

Appendix B. 36 Confusion Matrix REG and RED Channel Using AlexNet 115
Appendix C. 1 Training and Validation Green, NIR and RED Channel Using CNN
(a) Training and Validation Accuracy Green, NIR and RED (b) Training and
Validation Loss Green, NIR and RED
Appendix C. 2 Confusion Matrix Green, NIR, and RED Channel Using CNN117
Appendix C. 3 Training and Validation Green, NIR and RED Channel Using
ResNet-50 (a) Training and Validation Accuracy Green, NIR and RED (b)
Training and Validation Loss Green, NIR and RED Channel
Appendix C. 4 Confusion Matrix Green, NIR, and RED Channel Using ResNet-50
Appendix C. 5 Training and Validation Green, NIR and RED Channel Using
AlexNet (a) Training and Validation Accuracy Green, NIR and RED (b) Training
and Validation Loss Green, NIR and RED Channel
Appendix C. 6 Confusion Matrix Green, NIR, and RED Channel Using AlexNet
Appendix C. 7 Training and Validation Green, NIR and REG Channel Using CNN
(a) Training and Validation Accuracy Green, NIR and REG (b) Training and
Validation Loss Green, NIR and REG Channel
Appendix C. 8 Confusion Matrix Green, NIR, and REG Channel Using CNN121
Appendix C. 9 Training and Validation Green, NIR and REG Channel Using
ResNet-50 (a) Training and Validation Accuracy Green, NIR and REG (b) Training
and Validation Loss Green, NIR and REG Channel
Appendix C. 10 Confusion Matrix Green, NIR, and REG Channel Using ResNet-
50
Appendix C. 11 Training and Validation Green, NIR and REG Channel Using
AlexNet (a) Training and Validation Accuracy Green, NIR and REG (b) Training
and Validation Loss Green, NIR and REG Channel
Appendix C. 12 Confusion Matrix Green, NIR, and REG Channel Using AlexNet
Appendix C. 13 Training and Validation RED, REG and Green Channel Using
CNN (a) Training and Validation Accuracy RED, REG and Green Channel (b)
Training and Validation Loss RED, REG and Green Channel

Appendix C. 14 Confusion Matrix RED, REG, and Green Channel Using CNN
Appendix C. 15 Training and Validation RED, REG and Green Channel Using
ResNet-50 (a) Training and Validation Accuracy RED, REG and Green Channe
(b) Training and Validation Loss RED, REG and Green Channel
Appendix C. 16 Confusion Matrix RED, REG, and Green Channel Using ResNet
50
Appendix C. 17 Training and Validation RED, REG and Green Channel Using
AlexNet (a) Training and Validation Accuracy RED, REG and Green Channel (b
Training and Validation Loss RED, REG and Green Channel
Appendix C. 18 Confusion Matrix RED, REG, and Green Channel Using AlexNe
Appendix C. 19 Training and Validation REG, Green, and NIR Channel Using
CNN (a) Training and Validation Accuracy REG, Green, and NIR Channel (b)
Training and Validation Loss REG, Green, and NIR Channel
Appendix C. 20 Confusion Matrix RED, Green, and NIR Channel Using CNN
Appendix C. 21 Training and Validation REG, Green, and NIR Channel Using
ResNet-50 (a) Training and Validation Accuracy REG, Green, and NIR Channe
(b) Training and Validation Loss RED, Green and NIR Channel
Appendix C. 22 Confusion Matrix REG, Green, and NIR Channel Using ResNet
50
Appendix C. 23 Training and Validation REG, Green, and NIR Channel Using
AlexNet (a) Training and Validation Accuracy REG, Green, and NIR Cannel (b
Training and Validation Loss REG, Green, and NIR Channel
Appendix C. 24 Confusion Matrix REG, Green, and NIR Channel Using AlexNe
Appendix D. 1 Training and Validation Green, NIR, RED, and REG Channe
Using CNN (a) Training and Validation Accuracy Green, NIR, RED, and REC
Channel (b) Training and Validation Loss Green, NIR, RED and REG Channe
134

Appendix D. 2 Confusion Matrix Green, NIR, RED, and REG Channel Using CNN
Appendix D. 3 Training and Validation Green, NIR, RED, and REG Channel
Using ResNet-50 (a) Training and Validation Accuracy Green, NIR, RED, and
REG Channel (b) Training and Validation Loss Green, NIR, RED and REG
Channel
Appendix D. 4 Confusion Matrix Green, NIR, RED, and REG Channel Using
ResNet-50
Appendix D. 5 Training and Validation Green, NIR, RED, and REG Channel
Using AlexNet (a) Training and Validation Accuracy Green, NIR, RED, and REG
Channel (b) Training and Validation Loss Green, NIR, RED and REG Channel
Appendix D. 6 Confusion Matrix Green, NIR, RED, and REG Channel Using
AlexNet
