PREFACE

Assalamu'alaikum Wr. Wb.

All praise and gratitude are due to Allah SWT, for with His grace and guidance, I have been able to complete this Final Project entitled "Implementation Component Based Architecture in The Development Of Qirby Mobile Application Interface."

This Final Project has been prepared as one of the requirements for completing my studies and obtaining a Bachelor's degree in the Software Engineering Study Program, Faculty of Informatics, Telkom University. Additionally, this project is a practical application of the knowledge I have gained throughout my studies in the Software Engineering Study Program, Faculty of Informatics, Telkom University.

I acknowledge that this Final Project is still far from perfect. Therefore, I hope to continue learning and deepening the knowledge I have acquired. This Final Project would not have been possible without the assistance, input, and guidance from various parties. Therefore, I would like to express my deepest gratitude to:

- Nungki Selviandro, S.Kom., M.Kom., Ph.D., as the first supervisor, and Monterico Adrian, S.T., M.T., as the second supervisor, for their time, support, guidance, and motivation in completing this thesis.
- To my beloved parents, Reynold and Milda Guza, and my sibling, Fadhilah Aisya Nabila and Muhammad Pasha Al Fath, who have provided prayers, support, and motivation throughout the completion of this thesis.
- To my fellow comrades who have accompanied me, provided encouragement, and shared both joys and sorrows during the process of writing this thesis. Thank you for the camaraderie, support, and laughter that have always been present at every step.

I would also like to extend my thanks to everyone who has helped, even though I cannot mention each one by name.

I pray that Allah SWT will always bestow His grace and guidance upon all of them. I hope this thesis can bring benefits to us all. Aamiin.

Wassalamu'alaikum Wr. Wb.
