FOREWORD

We extend our deepest gratitude to the Almighty God for His blessings, grace, and guidance, which have enabled us to complete this final project titled "Workload Analysis Using the NASA-TLX Method at PT. Tricomindo Cipta Mandiri." This project is one of the requirements for obtaining a Bachelor's degree in Industrial Engineering at the Faculty of Industrial Engineering, Telkom University, Bandung.

The research for this project was conducted at PT Tricomindo Cipta Mandiri, and the completion of this final project would not have been possible without the support, guidance, and contributions from many individuals who have selflessly assisted us throughout this journey. Therefore, we would like to express our heartfelt thanks to:

1. Ms. Tiara Verita Yastica, S.T., M.T., as the supervising lecturer.
2. Ms. Intan Permatasari, S.T., M.Sc., as the supervising lecturer.
3. Mr. Muhammad Nashir Ardiansyah, S.T., M.T., Ph.D., as the academic advisor.
4. Both of my parents, who have provided unwavering support.
5. Mr. Bambang Heru Soesetyo, Chief Executive Officer
6. Mr. Hari Winarso, General Manager of Projects.
7. Mr. Firtonius, General Manager of Operational
8. My friends, who have continually encouraged us to complete this final project.
9. All parties involved in the preparation of this final project.

We are deeply grateful to everyone who has contributed to the completion of this project. We acknowledge that this research may have its limitations, and we welcome any constructive criticism and suggestions. Finally, we hope that the results of this research will contribute to the advancement of knowledge in the field we have studied.

Bandung, 20 August 2024
