
LIST OF TABLES

3.1	Sample of Hotel	19
3.2	Sample of POI	19
3.3	Sample travel duration data between POIs	19
3.4	Sample travel duration data between POIs	19
3.5	Sample travel duration data from POI to Hotel	20
3.6	Sample travel duration data from Hotel to POI	20
4.1	The Fitness Value of Each Combination of Hyperparameter Tuning	35
4.2	Wilcoxon rank-sum test over various number of POIs	41
4.3	The Average of Daily and Overall Fitness of VRP and TSP Approaches	42
4.4	Wilcoxon Rank-Sum Test for Overall Fitness Value between VRP and TSP Approaches	42
4.5	The average fitness value of 50 sets of random POI for General Performance	44
4.6	Wilcoxon Rank-Sum Test for Primary Metric (Fitness Value)	44
4.7	The Secondary Metrics of 50 Sets of Random POIs for General Performance	45
4.8	Wilcoxon Rank-Sum Test for Secondary Metrics	45
4.9	Travel Duration (Hours) Needed to Visit All POIs in the Itinerary	47
4.10	Days Needed to Visit All POIs in the Itinerary	47
4.11	Average Travel Duration Needed to Visit each POI in the Itinerary	47
4.12	Wilcoxon Rank-Sum for the Average Travel Duration	48
4.13	Average Total Cost to Visit All POIs in the Itinerary	49
4.14	Wilcoxon Rank-Sum Test for Fitness Value in Cost Attribute Analysis	49
4.15	Average Rating of POIs in the Itinerary	51
4.16	Wilcoxon Rank-Sum Test for Fitness Value in Rating Attribute Analysis	51
4.17	Hypotheses and related experimental results	52
A.1	The result of WOA testing	60
A.2	The result of WOA-VNS testing	60
A.3	The Value for each Metrics of 50 Sets of Random POIs for General Performance	60
A.3	The Value for each Metrics of 50 Sets of Random POIs for General Performance	61
A.3	The Value for each Metrics of 50 Sets of Random POIs for General Performance	62
A.3	The Value for each Metrics of 50 Sets of Random POIs for General Performance	63
A.3	The Value for each Metrics of 50 Sets of Random POIs for General Performance	64
A.3	The Value for each Metrics of 50 Sets of Random POIs for General Performance	65
A.3	The Value for each Metrics of 50 Sets of Random POIs for General Performance	66
A.4	The Value for each Metrics of 50 Sets of Random POIs for Cost Attribute Analysis	67

- A.5 The Value for each Metrics of 50 Sets of Random POIs for Rating Attribute
Analysis 72
- A.6 Fitness Values and Running Times Over Various Numbers of POIs 77
- A.7 Daily and Overall Fitness of 50 Sets of Random POIs for VRP and TSP
Approaches 80
