

ACKNOWLEDGEMENTS

The completion of this thesis marks the fulfillment of the journey toward earning a Master's degree. This accomplishment would not have been possible without the unwavering support, encouragement, prayers, and contributions from family, friends, mentors, and colleagues. With deep gratitude, I would like to express my heartfelt thanks to:

1. Triwahyu Heru Yuwono and Eko Sununing Martuti, my beloved parents, for all the support and encouragement you have provided to motivate me to successfully complete my studies.
2. Rani Puspitasari and Aditya Mahendra, my siblings, for always providing comfort and being a source of strength during moments of fatigue throughout the thesis process.
3. Dr. Inung Wijayanto, S.T, M.T., my supervisor, for giving me the opportunity to participate in the master by research program and for the invaluable lessons shared during my master's studies.
4. Dr. Sugondo Hadiyoso, S.T, M.T., my co-supervisor, for your guidance, assistance, direction, and helpful advice throughout this thesis.
5. Prof. Dr. Achmad Rizal S.T., M.T., for your support and guidance during the data collection process of this thesis.
6. Dr. Ida Wahidah S.T., M.T., the current Head of the Magister of Electrical Engineering Study Program, for your wisdom, policies, and efforts in improving the program.
7. Mrs. Giashinta and Mr. Insan, the administrative team of the Magister of Electrical Engineering Study Program, for your assistance and support in academic administration.
8. The Neuropsychology Research Team of TelU, especially Thalita Dewi Rahmaniar, Anugrah Syawala, Annisa Aulia Khairani, and Sekar Ayuningtyas Kusumawardani, for their help in brainstorming, data collection, and data processing.

9. The Psychology Team of UNISBA, especially Andhita Nurul Khasanah, S.Psi., M.Psi., and Ayu Tuty Utami, S.Psi., M.Psi., for their collaboration and assistance in data collection.
