

ACKNOWLEDGMENTS

All praise and gratitude be to Allah SWT for His blessings and guidance, which have enabled me to complete this thesis as part of the academic requirements at Telkom University. This thesis would not have been possible without the support, guidance, and prayers of many individuals. Therefore, with deep appreciation and gratitude, I would like to express my sincerest thanks to:

1. Dr. Ade Romandhony, S.T., M.T., my thesis advisor, for his invaluable guidance, insightful feedback, and continuous support throughout the research and writing process. His patience and dedication have greatly contributed to the completion of this study.
2. All lecturers and academic staff at Telkom University, who have provided me with knowledge and academic support throughout my studies.
3. My beloved family, for their endless love, prayers, and unwavering support, both morally and materially, during my academic journey. Their encouragement has been my greatest motivation.
4. My friends and colleagues, who have always been there to offer support, motivation, and companionship throughout the challenges of completing this thesis.

I acknowledge that this thesis is not perfect, but I sincerely hope that it can contribute to the advancement of knowledge, particularly in the field of Aspect-Based Sentiment Analysis.

Finally, may all the kindness and support I have received be rewarded with the best from Allah SWT.
