

ACKNOWLEDGMENTS

ACKNOWLEDGMENTS

Praise and gratitude are due to God Almighty, for all His blessings, grace, and gifts, which have provided knowledge, experience, strength, patience, and opportunity to the author so that he can complete this thesis. However, the author realizes that without the help and support of various parties, the preparation of this thesis could not run well. The writing of this thesis has received a lot of help in the form of time, energy and thoughts from many parties. In connection with that, then on this occasion please allow the author to express my deepest gratitude to:

1. Prof. Dr. Adiwijaya, S.Si., M.Si. as the rector of Telkom University
2. Dr. Levy Olivia Nur, S.T., M.T. as the first supervisor, who always guided well, provided input and appropriate and timely problem solving, and guided wholeheartedly until this thesis was completed on time.
3. Dr. Bambang Setia Nugroho, S.T., M.T. as the second supervisor, who always provides motivation, reminds the author to always be thorough and on time, and provides good direction, so that the writing of this thesis can run smoothly.
4. Parents who always provide prayers, support, advice, and motivation wholeheartedly during the process of this thesis.
5. Family, brothers, sisters, and closest friends who have encouraged and provided prayers during the thesis work.
6. Antenna Laboratory Assistants who have taken the time to help and teach in the measurement process in this thesis.
7. All Telkom University Civitas who have helped the author's learning process during the lectures at Telkom University.

Finally, the author would like to thank all those who cannot be mentioned one by one in this preface and hopefully this thesis can be useful for readers.
