

LIST OF FIGURES

Figure 2-1 General architecture of a CNN.....	12
Figure 2-2 Encoding Images as an Input Architecture for CNN	14
Figure 2-3 VGG16 Architecture [34]	15
Figure 2-4 Example of Time Series Image Encoding.....	17
Figure 2-5 Dimensionality Reduction using PAA Technique	19
Figure 3-1 Research Steps	27
Figure 3-2 Data Before Normalizing and After Normalized	28
Figure 3-3 Overview of The Process of Converting Time Series to 2D Images ..	31
Figure 4-1 Labeling for Classifying Operational States Across 24 Filters	39
Figure 4-2 Multivariate Time Series Sliding Windows	41
Figure 4-3 Workflow of the Proposed Image Based Multivariate Time Series Classification Framework Using Convolutional Neural Network.....	41
Figure 4-4 Dimensionality Reduction via PAA Technique	42
Figure 4-5 Encoding Images for Filter 1 (Result Example of Filter 1)	44
Figure 4-6 Image Concatenation into RGB Channels	45
Figure 5-1 Scatter Plot Analysis Across Econding Methods.....	51
