

## DAFTAR ISI

|                                              |     |
|----------------------------------------------|-----|
| LEMBAR PENGESAHAN .....                      | ii  |
| LEMBAR PERNYATAAN ORISINALITAS .....         | iii |
| ABSTRAK .....                                | iv  |
| ABSTRACT .....                               | v   |
| KATA PENGANTAR .....                         | vi  |
| UCAPAN TERIMA KASIH .....                    | vii |
| DAFTAR ISI .....                             | ix  |
| DAFTAR GAMBAR .....                          | xii |
| DAFTAR TABEL .....                           | xiv |
| DAFTAR ISTILAH .....                         | xvi |
| BAB I PENDAHULUAN .....                      | 18  |
| 1.1. Latar Belakang Masalah .....            | 18  |
| 1.2. Rumusan Masalah .....                   | 20  |
| 1.3. Tujuan dan Manfaat .....                | 20  |
| 1.4. Batasan Masalah .....                   | 21  |
| 1.5. Metode Penelitian .....                 | 21  |
| BAB II TINJAUAN PUSTAKA .....                | 6   |
| 2.1. Aritmia .....                           | 6   |
| 2.2. Elektrofisiologi Jantung .....          | 7   |
| 2.3. Sistem Diagnostik Menggunakan EKG ..... | 11  |
| 2.3.1. Atrial Fibrillation .....             | 15  |
| 2.3.2. Ventricular Tachycardia .....         | 16  |
| 2.3.3. Atrial Flutter .....                  | 17  |

|                                  |                                            |    |
|----------------------------------|--------------------------------------------|----|
| 2.3.4.                           | Ventricular Bigeminy.....                  | 17 |
| 2.3.5.                           | Nodal (A-V Junctional) Rhythm.....         | 18 |
| 2.3.6.                           | Paced Rhythm .....                         | 18 |
| 2.3.7.                           | Supraventricular Tachyarrhythmia.....      | 19 |
| 2.3.8.                           | Normal Sinus Rhythm.....                   | 20 |
| 2.4.                             | Holter Monitor.....                        | 20 |
| 2.5.                             | Gated Recurrnet Unit (GRU).....            | 21 |
| 2.6.                             | Bidirectional GRU (BiGRU).....             | 24 |
| 2.7.                             | Penelitian Terkait.....                    | 25 |
| BAB III PERANCANGAN SISTEM ..... |                                            | 28 |
| 3.1.                             | Desain Sitem Penelitian.....               | 28 |
| 3.1.1.                           | Dataset dan Analisis Eksplorasi Data ..... | 28 |
| 3.1.2.                           | Diagram Blok Sistem .....                  | 33 |
| 3.1.3.                           | Diagram Alir Penelitian .....              | 34 |
| 3.2.                             | Perancangan Algoritma .....                | 36 |
| 3.2.1.                           | Data Preprocessing.....                    | 37 |
| 3.2.2.                           | Deteksi R-Peak dan Sliding Window.....     | 41 |
| 3.2.3.                           | Varian Model GRU (GRU0-GRU4) .....         | 44 |
| 3.2.4.                           | Bidirectional GRU (BiGRU).....             | 45 |
| 3.2.5.                           | Hyperparameter Tuning .....                | 47 |
| 3.3.                             | Evaluasi Performa Model.....               | 48 |
| 3.3.1.                           | Confusion Matrix .....                     | 48 |
| 3.3.2.                           | Accuracy .....                             | 49 |
| 3.3.3.                           | Precision.....                             | 49 |
| 3.3.4.                           | Recall.....                                | 50 |
| 3.3.5.                           | F1-Score .....                             | 50 |

|                                                              |    |
|--------------------------------------------------------------|----|
| 3.3.6. ROC dan AUC .....                                     | 50 |
| BAB IV ANALISIS DAN HASIL.....                               | 51 |
| 4.1. Preprocessing Dataset.....                              | 51 |
| 4.1.1. Balancing Durasi Tiap Label Aritmia .....             | 51 |
| 4.1.2. Filtering.....                                        | 52 |
| 4.1.3. Sliding Window .....                                  | 53 |
| 4.1.4. Resampling Window .....                               | 55 |
| 4.1.5. Pembagian Dataset .....                               | 57 |
| 4.2. Pengaruh Panjang Window terhadap Performa Model .....   | 59 |
| 4.3. Perbandingan Performa Varian GRU dan BiGRU .....        | 60 |
| 4.4. Analisis Hyperparameter Tuning pada GRU dan BiGRU ..... | 62 |
| 4.4.1. Evaluasi Model Varian GRU (GRU0 – GRU4).....          | 63 |
| 4.4.2. Evaluasi Model Varian BiGRU (BiGRU1 - BGRU3) .....    | 66 |
| 4.5. Evaluasi Model Terbaik .....                            | 70 |
| BAB V SIMPULAN DAN SARAN .....                               | 73 |
| 5.1. Simpulan.....                                           | 73 |
| 5.2. Saran .....                                             | 74 |
| DAFTAR PUSTAKA .....                                         | 75 |
