

ACKNOWLEDGEMENTS

With full gratitude to Allah SWT for all the abundance of grace, blessings, and His gifts, the author was able to complete this final project well. This long journey would not have been possible without the support of various parties who sincerely provided encouragement, prayers, and invaluable love.

This work is dedicated with great dedication to the following:

1. Allah SWT, the Almighty Giver of Life, who has opened the way amidst all limitations. In every second of fatigue and uncertainty, there is always strength that comes unexpectedly. May every piece of knowledge contained in this work become a beneficial charity.
2. I give thanks to Mr. Rudy Effendy and Mrs. Wiwik Widiastuti, beloved, who never stopped giving prayers, love, and support, even in silence. Every drop of sweat and tears is the greatest source of strength for the author. May this work be able to be a small manifestation of gratitude that can never be enough.
3. The extended family, who always provides encouragement, warmth and a place to return. To beloved siblings who have witnessed the struggle from beginning to end.
4. To Dr. Ida Wahidah, S.T., M.T., as Supervisor I, and Prof. Dr. Koredianto Usman, S.T., M.Sc., as Supervisor II, who have patiently provided guidance, input, and invaluable mentorship at every stage of this research process. May every knowledge given become a blessing and inspiration for the author in the future.
5. To friends and discussion partners who never tire of sharing ideas, laughter, and grievances. Our togetherness has made this process colorful and full of unforgettable memories.
6. To my colleagues who always provide encouragement, understanding, and support despite the busyness of work. Thank you for the cooperation and inspiration you have provided all this time.
7. The supervisor in the workplace who has provided the opportunity, trust and space to continue my professional and academic development. Support

and comprehension have been extremely beneficial in the completion of this investigation.

8. And finally, to myself. Thank you for enduring in the midst of exhaustion, continuing to walk when in doubt, and holding firm to the goal when circumstances feel impossible. May this achievement be the beginning of a more exciting and meaningful journey.
