

ACKNOWLEDGEMENTS

This thesis is compiled with the effort, help, and support from all supporting elements. The author would like to express the deepest gratitude and thanks to:

1. Allah SWT, for all the love, guidance and forgiveness in every mistake that the author has ever done and Rasulullah SAW, as role model who inspire author in living life and trying to be better.
2. Mr. Koredianto Usman is a supervisor who is patient with me and is ready to help with any complaints and mistakes that the author has made during the thesis writing and research process.
3. Mr. Gelar Budiman, who is also a supervising lecturer, always provides input on every writing style and improvements to the research being conducted by the author.
4. Mr. Fityanul, who was also my inspiration from the beginning of the research, even though he did not accompany me until the end of the struggle, the research methods that he had taught me were very inspiring and motivated the author in his work and research.
5. Mr. Inung Wijayanto, Mr. Istikmal, and Mr. Nur Ibrahim, who were the examiners and judges for the author in completing this thesis book, so that it becomes better.
6. Then the family certainly sacrificed a lot of time, emotions, and feelings to make it easier for the author to focus on completing this thesis book.
7. For my wife and children always patiently accompany me when I am at the edge of despair, and are ready to encourage with a smile at any time.
8. To both parents who always pray and encourage directly and support every problem encountered, and to my older and younger siblings who provide motivation to fight until the author completes this thesis book.
9. To my friends in the struggle, Mas Fikri, Pak Yos, Mas Faris, Mas Dhimas, Mba Ida, Mba Rara, and lastly Mba Khanaya, who, from the beginning of my

education until the end of study, even though they have completed their respective educations, continue to support the author with words of inspiration and indirect assistance.

10. And last but not least, the people in my work environment at PT Huawei during my education always accompanied and supported me during the process, and continued to support me in my work so that all existing responsibilities were completed well.

PREFACE

Alhamdu lillahi rabbil 'alamin, praise to Allah, the most gracious, the most merciful, with the mercy and guidance, the author has successfully finished this thesis with the title of "**OBJECT DETECTION ALGORITHM FOR RAILWAY CRACK INSPECTION SYSTEM**". The author compiled this thesis to be filled in the graduation requirements in Program of Master of Electrical-Telecommunication Engineering, School of Electrical Engineering, Telkom University.

The suggestions for improving this thesis are highly appreciated. Hopefully, this thesis is expected to be improved and provided contributions for the reader and Indonesia especially for education and research of telecommunication on the future.
