GLOSSARY OF TERMS

Touminology	Description	Page first
Terminology		used
Agronomic	Relating to the science and technology of plant	1
	production for agricultural use.	
AI	Artificial Intelligence, a technology that	3
	mimics human intelligence for tasks such as	
	learning and decision-making.	
Android	An operating system for mobile devices	5
	developed by Google.	
ASR	Automatic speech recognition, a technology	11
	that automatically converts speech into text.	
API	Application Programming Interface, a protocol	1
	that enables applications to interact and	
	exchange data.	
Black Box	a Software testing method in which the internal	4
Testing	working of the application is not known to the	
	tester.	
Chatbot	An AI-based program designed to	3
	communicate with users via text or voice.	
Digital	The ability to use information and	4
Literacy	communication technologies effectively.	
End-users	The end user of an application or software.	27
Framework	A framework that simplifies software	6
	development.	
Front-End	The front-end refers to the user interface and	6
	visual elements of an application or website	
	that users interact with directly.	

Terminology	Description	Page first used
GPT-4o	Generative Pre-trained Transformer 4	3
	optimized model by OpenAI for natural	
	language understanding and generation.	
IOS	Apple's operating system for iPhone and iPad.	5
OpenAI	An artificial intelligence research lab known	3
	for developing advanced AI models.	
Prototyping	An iterative software development process	7
	involving continuous refinement based on	
	feedback.	
Speech	Technology for recognizing and converting	3
recognition	speech into text.	
UI	User Interface, the visual elements of an	8
	application for user interaction.	
UML	Unified Modeling Language, a graphical	22
	notation for designing software systems.	
UX	User Experience, the overall experience of	8
	users when using an application.	
View layer	The part of an application that displays data to	52
	users.	
Whisper	OpenAI's API for automatic speech	
	recognition, supporting multiple languages	3
	with high accuracy.
