| Gambar 2.1  | Pengomposan Organik.....                     | 6  |
| Gambar 2.2  | Smart Composter .....                        | 8  |
| Gambar 2.3  | Sensor DHT22.....                            | 8  |
| Gambar 2.4  | Sensor MQ-135 .....                          | 9  |
| Gambar 2.5  | Sensor Soil Moisture.....                    | 10 |
| Gambar 2.6  | Mikrokontroler ESP32.....                    | 11 |
| Gambar 2.7  | Blynk .....                                  | 12 |
| Gambar 3.1  | Diagram Sistem Smart Composter .....         | 13 |
| Gambar 3.2  | Arsitektur Sistem .....                      | 14 |
| Gambar 3.3  | Model Sistem .....                           | 16 |
| Gambar 3.4  | Flowchart Perancangan .....                  | 17 |
| Gambar 3.5  | Flowchart Sistem .....                       | 19 |
| Gambar 3.6  | Dashboard Blynk .....                        | 20 |
| Gambar 3.7  | Skenario Pengujian .....                     | 22 |
| Gambar 3.8  | Rangkaian Sistem .....                       | 24 |
| Gambar 4.1  | Peletakan ESP32 di Dalam Box .....           | 30 |
| Gambar 4.2  | Letak Sensor di Smart Composter .....        | 30 |
| Gambar 4.3  | Kalibrasi Suhu dan Kelembapan .....          | 32 |
| Gambar 4.4  | Serial Monitor Dht22 .....                   | 33 |
| Gambar 4.5  | Foto Hygrometer dan Termometer Digital ..... | 33 |
| Gambar 4.6  | Pengujian 1 .....                            | 37 |
| Gambar 4.7  | Grafik sensor per 10/9 menit .....           | 38 |
| Gambar 4.8  | Grafik sensor per jam.....                   | 39 |
| Gambar 4.9  | Hasil Pengujian 2 (12 menit) .....           | 41 |
| Gambar 4.10 | Grafik sensor pengujian 2.....               | 42 |
| Gambar 4.11 | Hasil Pengujian 2 (2 Jam).....               | 42 |
