

FIGURE LIST

Figure 1 Schematic of LSTM	6
Figure 2 solar irradiation dataset location.....	11
Figure 3 Design Forecasting System	12
Figure 4 Schematic Architecture 1-Layer LSTM	13
Figure 5 Schematic Architecture Conv + 1-Layer LSTM	13
Figure 6 Schematic Architecture 1-Layer LSTM + Dense	14
Figure 7 Schematic Architecture Conv + 1-Layer LSTM + Dense	14
Figure 8 Schematic Architecture 2-Layer LSTM	15
Figure 9 Schematic Architecture Conv + 2-Layer LSTM	15
Figure 10 Schematic Architecture 2-Layer LSTM + Dense	16
Figure 11 Schematic Architecture Conv + 2-Layer LSTM + Dense	16
Figure 12 Schematic Architecture 3-Layer LSTM	17
Figure 13 Schematic Architecture Conv + 3-Layer LSTM	17
Figure 14 Schematic Architecture 3-Layer LSTM + Dense	18
Figure 15 Schematic Architecture Conv + 3-Layer LSTM + Dense	18
Figure 16 Sliding window process for creating data sequences	19
Figure 17 LSTM architecture code	20
Figure 18 Compilation and Training Code	21
Figure 19 Daily averaged solar irradiance data for a year	22
Figure 20 Learning curve results with loss function for (a) LSTM, (b) LSTM+DENSE, (c) CONV+LSTM, and (d) CONV+LSTM+DENSE.....	23
Figure 21 Actual and Predicted Solar Irradiance One Year Analysis per Day	27
Figure 22 Actual and Predicted Solar Irradiance One Day Analysis per Minute	28
Figure 23 Solar irradiation decrease graph	30
Figure 24 Graph of percentage decrease.....	31
Figure 25 The most extreme decline of solar irradiation graph	32
Figure 26 Single line diagram of the Tayan, West Kalimantan power system.....	33
Figure 27 Simulation of system response to decreasing average solar irradiation	34
Figure 28 Simulation of system response to extreme decreases in solar irradiance	35
