

# DAFTAR ISI

|                                                     |      |
|-----------------------------------------------------|------|
| LEMBAR PENGESAHAN .....                             | ii   |
| LEMBAR ORISINALITAS.....                            | iii  |
| ABSTRAK.....                                        | iv   |
| ABSTRACT.....                                       | v    |
| KATA PENGANTAR.....                                 | vi   |
| UCAPAN TERIMA KASIH .....                           | vii  |
| DAFTAR ISI.....                                     | viii |
| DAFTAR TABEL .....                                  | x    |
| DAFTAR GAMBAR .....                                 | xi   |
| DAFTAR LAMPIRAN .....                               | xii  |
| DAFTAR ISTILAH .....                                | xiii |
| BAB I PENDAHULUAN.....                              | 1    |
| 1.1    Latar Belakang.....                          | 1    |
| 1.2    Rumusan Masalah .....                        | 3    |
| 1.3    Tujuan Penelitian.....                       | 3    |
| 1.4    Batasan Masalah.....                         | 3    |
| 1.5    Manfaat Penelitian.....                      | 3    |
| 1.6    Sistematika Penulisan.....                   | 4    |
| BAB II KAJIAN PUSTAKA DAN DASAR TEORI.....          | 5    |
| 2.1    Kajian Pustaka .....                         | 5    |
| 2.2    Sistem Presensi.....                         | 9    |
| 2.3    Gambar/Citra .....                           | 10   |
| 2.3.1    Citra Biner.....                           | 10   |
| 2.3.2    RGB ( <i>Red, Green, and Blue</i> ).....   | 11   |
| 2.3.3 <i>Grayscale</i> .....                        | 11   |
| 2.4 <i>Deep Learning</i> .....                      | 12   |
| 2.5 <i>Convolutional Neural Network (CNN)</i> ..... | 13   |
| 2.5.1    Convolutional Layer.....                   | 14   |
| 2.5.2 <i>Pooling Layer</i> .....                    | 15   |
| 2.5.3 <i>Fully Connected Layer</i> .....            | 16   |

|                                      |                                                      |    |
|--------------------------------------|------------------------------------------------------|----|
| 2.5.4                                | <i>Output Layer</i> .....                            | 18 |
| 2.6                                  | Arsitektur MobileNetv1 .....                         | 18 |
| 2.7                                  | <i>Tranfer Learning</i> .....                        | 21 |
| 2.8                                  | Face Recognition .....                               | 22 |
| 2.9                                  | Evaluasi Model .....                                 | 24 |
| BAB III PERANCANGAN SISTEM .....     |                                                      | 26 |
| 3.1                                  | Alat Penelitian .....                                | 26 |
| 3.1.1                                | Visual Studio Code .....                             | 26 |
| 3.1.2                                | TensorFlow.js .....                                  | 27 |
| 3.1.3                                | Kamera Laptop .....                                  | 28 |
| 3.2                                  | Perancangan Sistem .....                             | 28 |
| 3.2.1                                | <i>Flowchart</i> Sistem Kerja .....                  | 28 |
| 3.2.2                                | Pengumpulan Data .....                               | 30 |
| 3.2.3                                | <i>Pre-processing</i> .....                          | 30 |
| 3.2.4                                | <i>Flowchart</i> Pengujian Sistem .....              | 30 |
| 3.2.5                                | Perancangan <i>Website</i> .....                     | 32 |
| 3.3                                  | Data Pengujian .....                                 | 35 |
| 3.3.1                                | Skenario Pengujian .....                             | 35 |
| 3.3.2                                | Pengujian Deteksi Wajah dan Identifikasi Wajah ..... | 36 |
| BAB IV ANALISIS DAN PEMBAHASAN ..... |                                                      | 41 |
| 4.1                                  | Pengolahan Data .....                                | 41 |
| 4.2                                  | Hasil Pengujian .....                                | 45 |
| 4.2.1                                | Hasil Pengujian Tampak Depan .....                   | 47 |
| 4.2.2                                | Hasil Pengujian Kepala Menunduk .....                | 48 |
| 4.2.3                                | Hasil Pengujian Menghadap Kanan .....                | 48 |
| 4.2.4                                | Hasil Pengujian Menghadap Kiri .....                 | 49 |
| 4.2.5                                | Hasil Pengujian Menghadap Atas .....                 | 49 |
| 4.2.6                                | Data Hasil Pengujian .....                           | 50 |
| 4.3                                  | Analisis Hasil Pengujian .....                       | 50 |
| BAB V KESIMPULAN DAN SARAN .....     |                                                      | 53 |
| 5.1                                  | Kesimpulan .....                                     | 53 |
| 5.2                                  | Saran .....                                          | 53 |
| DAFTAR PUSTAKA .....                 |                                                      | 54 |
| LAMPIRAN .....                       |                                                      | 58 |
