

LIST OF SYMBOLS

Symbol / Notation	Description	First page used
n_0	The sample size	27
Z	The number of standard deviations from the mean	27
p	The estimated proportion of the population	27
e	The margin of error	27
N	Number or amount of indicators	30
i	The number of indicators	30
l	Outer Loading Value	30
$\tilde{n}_c$	Coefficient of density of composite reliability	31
l_i	Standardized outer loading value of indicator i	31
e_i	Measurement error of indicator i	31
$var(e_i)$	Variance of measurement error whose value is equal to $1 - l_i^2$	31
R^2	Coefficient of Determination	32
β	Path Coefficient	32
f^2	Effect size	32
Q^2	Predictive Relevance	33
λ	Standardized Loading Factor	50
