### BAB I PENDAHULUAN

|                                       |   |
|---------------------------------------|---|
| 1.1 Latar Belakang .....              | 1 |
| 1.2 Tujuan Penelitian .....           | 2 |
| 1.3 Perumusan Masalah .....           | 2 |
| 1.4 Batasan Masalah .....             | 2 |
| 1.5 Metode Penyelesaian Masalah ..... | 3 |
| 1.6 Sistematika Penulisan .....       | 3 |

### BAB II DASAR TEORI

|   |    |
|---|----|
| 2.1 Teori Suara Jantung Janin .....             | 5  |
| 2.2 Monoaural .....                             | 5  |
| 2.3 <i>Microphone</i> .....                     | 6  |
| 2.4 Penguat Awal ( <i>Pre-Amplifier</i> ) ..... | 8  |
| 2.5 Penguat Operasional .....                   | 10 |
| 2.6 <i>Filter</i> .....                         | 11 |
| 2.7 <i>Mikrokontroler</i> .....                 | 14 |
| 2.8 LCD .....                                   | 17 |

### **BAB III PERANCANGAN DAN REALISASI**

|  |    |
|--|----|
| 3.1 Perancangan Sistem .....                     | 19 |
| 3.2 Prinsip Kerja Sistem .....                   | 19 |
| 3.3 Pre-amp dan Op-amp .....                     | 20 |
| 3.4 Low Pass Filter .....                        | 21 |
| 3.5 Perancangan Penguat Audio .....              | 25 |
| 3.6 Perancangan Mikrokontroler ATMEGA 8535 ..... | 26 |

### **BAB IV PENGUKURAN DAN ANALISA**

|   |    |
|---|----|
| 4.1 Pengukuran Penguat Ttransistor .....          | 29 |
| 4.2 Pengukuran <i>Operational Amplifier</i> ..... | 30 |
| 4.3 Pengukuran LPF .....                          | 31 |
| 4.4 Pengukuran Penguat Audio .....                | 33 |
| 4.5 Pengukuran Sistem Keseluruhan .....           | 34 |
| 4.6 Mikrokontroler .....                          | 35 |

### **BAB V KESIMPULAN DAN SARAN**

|                      |    |
|----------------------|----|
| 5.1 Kesimpulan ..... | 37 |
| 5.2 Saran .....      | 37 |

### **DAFTAR PUSTAKA**
